## GUNS STILL SPOUTING LEAD AT RURALES.

*Cuban Revolutionary Movement Spreads in Spite of Palma's Activity.*

*Rebels Put Up Fights in the Supposedly Loyal Province of Matanzas—Government Forces Defeat Gen. Banderas in Second Conflict at Hoyo—United States to Intervene Whenever Requested.*

[BY DIRECT WIRE TO THE TIMES.]

HAVANA, Aug. 21.—(Copyright 1906, by the New York Herald.) Although the situation tonight appears slightly better in Havana province, there is every indication of the revolution spreading. From Matanzas Province, where the government declared the entire people to be loyal, comes news, tonight, of a fight between Rural Guards and a party of at least twenty rebels, near Colon.

At Macagua, another combat took

been made in the last three days. Frequent desertions from the Rural Guards are reported. News from Pinar Del Rio is scarce.

**CABINET CRISIS AVERTED.**  
The threatened Cabinet crisis is believed to have been averted, owing to President Palma's desisting from his intention of placing Senor Montalvo in charge of an armed force as Secretary of War.

The Provincial Council met, this afternoon, to denounce the revolution, but the Liberals refused to assist, causing failure for lack of a quorum. **ENLISTS THREE HUNDRED MEN.**

The government enlisted 300 men in Havana, this afternoon, paying \$1 a day. Practically all are negroes, with the exception of the officers. One of the latter is Col. Estrampes, an American, from New Orleans.

The government is confident tonight that it has the situation well in hand, which is probably true throughout Havana Province.

Notwithstanding this, the rebels took Guines, a town of 2000 inhabitants, this afternoon, without resistance.

The revolution has caused a business crisis, the bottom dropping out of all values. Unless a change for the better comes soon, there will be numerous failures.

**GEN. JOSE M. GOMEZ TAKEN.**

Gen. José Miguel Gomez was arrested on his cattle ranch in Santa Clara Province. The government announced that he is being taken to join the revolution. This his friends vehemently deny.

**GOMEZ LED A BAND.**  
[BY THE ASSOCIATED PRESS.—A.M.]

HAVANA, Aug. 21.—The Cuban government has been positively informed that Gen. José Miguel Gomez, who was a candidate for the President, has left Yaguajay, province of Santa Clara, accompanied by a band of insurgents. His visit to the United States, last winter, is said to have been for the purpose of purchasing arms.

The authorities of Santa Clara Province have been ordered to arrest Gen. Gomez. His secretary, Juan Menela, was arrested last night.

Several armed men were arrested on the roads leaving this city last night and this morning.

Many people are coming into Havana fearing to remain in the country.

**SECRETARY ARILLA RESIGNS.**

Secretary of State and Justice Arilla, who was acting Secretary of the Interior, has resigned from the Cabinet. His action was due to President Palma's criticizing him for not being in close touch with the insurrectionary movement, and for not strongly grasping the situation. This culminated in the appointment, yesterday, of Gen. Rafael Montalvo, Secretary of Public Works, to take direct charge of all the military operations against the insurgents.

**STRENGTH OF INSURRECTOS.**

Conservative estimates place the number of insurrectionists at from 1000 to 1200.

President Palma has decreed the increase of the Rural Guard to 4000.

**FIRST DEATH OCCURS.**

The first death resulting from the insurrection occurred this afternoon. In an exchange of shots between a company of Rural Guards and a band of bandits, Lieut. Rogue, the commander of the Rural Guards, was killed. The band escaped, dragging with them two of their men, who are believed to have been mortally wounded.

**PIRAR DEL RIO RENDEVOUS.**

It is evident that the Pinar Del Rio insurgents are concentrating in the vicinity of the city of Pinar del Rio, intent on occupying it for their headquarters.

It is feared by the inhabitants that the city of Pinar del Rio will be occupied by the insurgents tonight. The troops which arrived here from the east today only transferred 100 men and horses to the Western Railroad, and these were forwarded to the city of Pinar del Rio. The remainder of the trainload of eleven cars were dropped at various points in Santa Clara, Matanzas and Havana provinces.

A detachment of 300 Rural Guards arrived here today from Central Cuba and proceeded to the province of Pinar del Rio, where they will reinforce the Rural Guards who are operating against the insurgents.

**SHOTS NEAR PALEITINO.**

A band of about a dozen armed insurgents while endeavoring to pass unobserved near the city waterworks, at Paleitino, last night, were ordered to halt. They replied with a volley and then disappeared.

The authorities are endeavoring to prevail upon young men here to volunteer for service in the Rural Guards.

**O'FARRELL STILL IN.**

Later in the day, Secretary O'Farrell denied having resigned, and said that everything looked favorable for the government.

Raphael Duany, a nephew of Gen.

Demetrio Castillo, is reported to be endeavoring to organize an insurrection in the province of Santiago.

**GOVERNOR AND EDITOR JAILED.**  
[BY THE ASSOCIATED PRESS.—A.M.]

SANTIAGO DE CHILE, Aug. 21.—Governor of the province of Santiago, and J. G. Gomez, one of the editors of La Lucha of Havana, were arrested quietly by Rural Guards at Elcano last night, charged with inciting a revolution. Both men disclaim treasonable intentions.

**UNITED STATES STANDS READY.**

**NAVAL FORCES ARE AT CUBA'S DISPOSAL WHEN NEEDED.**

State Department Officials Rely on President Palma's Ability to Restore Equilibrium—No Doubt Exists of Right to Intervene Under Platt Amendment Terms.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Aug. 21.—[Exclusive Dispatch.] Although it is said at the State Department that it has nothing more in the way of news from Cuba than the dispatch from Jacob Slesinger, Chargé d'Affaires of the American legation at Havana, which was made public yesterday, it is intimated that should President Palma notify this country that the situation in the Pinar Del Rio and Havana provinces had gone beyond his control, the United States would, under such circumstances, proceed under the Platt amendment, and, if necessary to insure the stability of the Cuban government, send an armed force, presumably of the navy, to restore equilibrium.

**DEPENDENT UPON PALMA.**

In the absence of details, officials of the department decline to commit themselves upon the question of immediate necessity. It is further said that no action will be taken until a request for aid comes from President Palma, and it is realized that he will not make such a request until he finds the republic at the last extremity.

**RIGHT OF INTERVENTION.**

No doubt exists as to the right of the United States to intervene in Cuba, if it considers that the situation there imperils a stable government. The relations of the United States and Cuba in this regard are specified by the Platt amendment to the Army Appropriation Bill of 1901. This was passed before the American government evacuated the island and turned it over to the Cubans, May 20, 1902.

The section of the amendment most clearly applicable to the present situation, should it get beyond the control of President Palma, is the third, which reads as follows:

"That the government of Cuba consents that the United States may exercise the right to intervene for the protection of Cuban independence, the maintenance of a government adequate for the protection of life, property and individual liberty, and for discharging the obligations with respect to Cuba imposed by the Treaty of Paris upon the United States, now to be assumed and undertaken by the government of Cuba."

**ADOPTED BY CUBANS.**

The Platt amendment was drawn because of the fear that Cuban self-government might not be successful and that a reign of revolution might be inaugurated there, as in other Latin-American republics.

## TEMBLORS' VORTEX SWALLOWS QUILLOTA.

*Less Than One Hundred of the Inhabitants Escape from the Engulfing Chasm—Shocks Continue and Peru and Ecuador Are Visited.*

[BY DIRECT WIRE TO THE TIMES.]

LIMA (Peru) Aug. 21.—This morning there was a slight earthquake shock here. Huacho was shaken by an earthquake yesterday.

There was a very heavy earthquake shock at Valparaiso last night.

According to the latest reports received here from Chile, the town of Quillota, situated about twenty-six miles from Valparaiso and having a population of some ten thousand people, has been completely destroyed.

**SANTIAGO STILL SHAKING.**  
[BY THE ASSOCIATED PRESS.—A.M.]

SANTIAGO DE CHILE, Aug. 21.—At 2:20 a.m., yesterday, there were two further tremors at short intervals at Santiago, but they did no damage.

About 7:40 p.m. another slight shock was experienced.

The destruction of the villages of Papudo, Zapilla and Renza has been confirmed.

At Alhancaya, capital of the Peruvian Department of Apurimac, earthquake shocks were felt Friday and today.

their homes, but are sleeping on the surrounding hills and in the streets and squares.

The fires have all been extinguished. More than one hundred men taken in the act of committing robbery have been shot.

**FIVE THOUSAND DEAD.**  
[BY THE ASSOCIATED PRESS.—A.M.]

LATEST FROM VALPARAISO. A dispatch from Santiago today, announcing that President Risco is proceeding to Valparaiso, accompanied by the Ministers of Interior and of War, to supervise the relief work.

**PRESIDENT'S CONDOLENCES.**

President Roosevelt's message of sympathy with the Chilean people was most gratefully received by the government and people, and messages of sincere thanks were cabled to Washington by the Chilean President.

Several telegrams from Santiago, published here this morning, announce the arrival there from Valparaiso of Charles Johnson, Ganan, a well-known Chilean, after a terrible journey, accompanied partly on foot and partly on horseback. He confirms the reports of the fearful destruction and incalculable loss of life at Valparaiso.

**RAILROADS' CONDITION.**

The Chilean Minister of the Interior reports that the railroad from Tilt to Batuco is working regularly, but that from Tilt to Santiago the line has not been working. At Coloma, Batuco, Polipio and Tilt the railroad stations, streets and dwellings have all been destroyed.

The President of Chile has ordered the immediate construction of provisional buildings of wood and zinc in order to house the homeless. Military engineers are now repairing the railroads and telegraph lines.

**AID FOR THE FRENCH.**  
[BY THE ASSOCIATED PRESS.—A.M.]

PARIS, Aug. 21.—The Foreign Office has placed a large sum of money with M. Desprez, the French Minister at Santiago, and M. Doucorthal, the Consul at Valparaiso, to be turned over to a committee which has been formed to assist French sufferers from the earthquake.

**ALARM SEIZES SANTIAGO.**  
[BY THE ASSOCIATED PRESS.—A.M.]

EXPECTED ANOTHER QUAKE. SANTIAGO (Chile) Aug. 21.—The population of Santiago was thrown into a condition of extreme alarm last night, as the result of the circulation of the false news that the observatory had announced a second horrible catastrophe to be imminent. People would not sleep indoors, and large numbers spent the night in the streets and squares.

The alarm originated from some

persons declaring they had seen the black flag, the sign of danger, flying from the observatory, which is situated on San Cristobal Hill.

**STEAM WHISTLES SHRIEK.**

The shrieking of steam whistles announcing danger also added to the alarm. The police, instead of calming the people, instead of their heads, and added to the terror.

President Risco wrote a letter to the director of the observatory, asking for an explanation. The director stated that the whole thing was a misapprehension on the part of the people.

**ON PERUVIAN FRONTIER.**

**QUAKE TRAVELS NORTHWARD.**  
[BY DIRECT WIRE TO THE TIMES.]

TACUNA, August 21.—[Exclusive Dispatch.] A message from Sania, on the Peruvian frontier, states that the earthquake shocks reported at Arica were distinctly felt there. Scientists here say this proves that the earthquake is traveling northward.

**HEAVY QUAKE AT QUITO.**  
[BY THE ASSOCIATED PRESS.—A.M.]

QUITO, Aug. 21.—A heavy shock was felt today at Quito. The inhabitants ran from their houses in great alarm, fearing a repetition of the Valparaiso disaster. No damage was done.

Chile's catastrophe is deeply lamented in Ecuador, and all the towns in the republic are collecting money for the unfortunates. A remittance of \$10,000 was cabled today.

**ESTIMATES FROM BOLIVIA.**  
[BY THE ASSOCIATED PRESS.—A.M.]

TIDINGS TO BUENOS AYRES. BUENOS AYRES, Aug. 21, 3 p.m.—The Nation today published a special dispatch from La Paz, Bolivia, announcing that 2000 persons had lost their lives as a result of the earthquake shocks and fire at Valparaiso; that 170 deaths from the same causes occurred at Laima; forty at Quillota; thirty-five at Conchalí; eleven at Quetara; ninety at La Florida and six at La Calera.

Sunday last, August 19, there was a strong convulsion at Valparaiso, which produced a further panic.

**TRISCO GOES TO VALPARAISO.**

A dispatch from Santiago today, announcing that President Risco is proceeding to Valparaiso, accompanied by the Ministers of Interior and of War, to supervise the relief work.

**PRESIDENT'S CONDOLENCES.**

President Roosevelt's message of sympathy with the Chilean people was most gratefully received by the government and people, and messages of sincere thanks were cabled to Washington by the Chilean President.

Several telegrams from Santiago, published here this morning, announce the arrival there from Valparaiso of Charles Johnson, Ganan, a well-known Chilean, after a terrible journey, accompanied partly on foot and partly on horseback. He confirms the reports of the fearful destruction and incalculable loss of life at Valparaiso.

## ARMED MOVEMENT ON MONTE CRISTI.

*Nine-hundred Revolutionists, Under Gen. Guellio, On the March to Join Gen. Navarro in Making the Attack.*

(BY DIRECT WIRE TO THE TIMES.)

CAPE HATTEN (Hayti) Aug. 21.—Advices received here from Guayabin, Santo Domingo, say that Gen. Guellio, at the head of 900 revolutionists, has left Guayabin to join the troops of Gen. Navarro and make an attack on Monte Cristi.

The government of Santo Domingo has sent 1200 men from Moca against the revolutionists. It is believed that a desperate civil war will follow.

## RIPLEY TALKS UP TO KANSAS PEOPLE.

*President of the Santa Fe Railroad Finds No Moral Obligations in Passes—Company Will Do Politics Whenever Necessary.*

(BY THE ASSOCIATED PRESS—P.M.)

CHICAGO, Aug. 21.—President E. P. Ripley of the Atchison, Topeka and Santa Fe Railroad today addressed an open letter to the people of Kansas in answer to communications approving or criticizing his conduct of the Santa Fe affairs.

## NEW CHIEF ENGINEER OF THE SANTA FE.

(BY THE ASSOCIATED PRESS—P.M.)

TOPEKA (Kan.) Aug. 21.—The appointment of W. B. Storey, Jr., to be chief engineer of the Santa Fe system, with headquarters at Chicago, was announced from the general office of the company here yesterday. The appointment is effective September 1.

Storey is at present chief engineer of the Santa Fe lines between Chicago and Albuquerque, with headquarters at Chicago.

C. A. Morse, at present chief engineer of the lines west of Albuquerque, has been appointed to succeed Storey as chief engineer of the Santa Fe proper, at Topeka.

HARRIMAN'S STEAMER LINE.

OPPOSITION AT PORTLAND.

(BY DIRECT WIRE TO THE TIMES.)

SEATTLE, Aug. 21.—(Exclusive Dispatch.) Portland capitalists are attempting to charter the Northwestern Steamship Company's fleet at this end of the home season, to be operated out of Portland on the San Francisco run in opposition to the Harriman line.

There is bitter opposition growing in Portland to the Harriman Steamship line, shippers claiming that Harriman has not provided for either passenger or freight traffic. Both are growing, and especially now, when a freight blockade exists on the Southern Pacific, the lack of new boats to handle water shipments is felt keenly.

The Northwestern Steamship Company today announced that the officials were looking for a winter route for the boats in the home fleet. All business that is offered in Southeastern and Central Alaska can be handled by their steamers, and seven steamers are open to winter charters. The Olympia, Edith and Pennsylvania have the greatest freight capacity, while the others are better known as passenger carriers.

BAY SHORE CUT-OFF.

DATE OF COMPLETION SET.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Aug. 21.—The Southern Pacific Company announced through its general passenger department, yesterday, that January 1, next, the Bay Shore cut-off would be completed and that a new and fast schedule of trains would be put on the run between San Jose, way stations and San Francisco.

The new schedule will bring San Mateo within twenty-five to thirty minutes of San Francisco; Palo Alto and Stanford University from forty to forty-five minutes and San Jose sixty minutes. Half-hour trains will be run during the entire day for suburban traffic, and night trains will be put on as soon as the travel warrants.

CAMPAIGN IN WASHINGTON.

STATE COMMISSION FIGHT.

(BY DIRECT WIRE TO THE TIMES.)

SEATTLE (Wash.) Aug. 21.—(Exclusive Dispatch.) Washington railroad united, today, in an attack upon the State Railroad Commission, which, it is successful, will wipe that body out of existence. The constitutionality of the law that creates the commission was questioned by the roads, and an injunction was asked of Federal Judge C. H. Hanford to prevent the commission's enforcing a decision to put into effect joint rates on wheat from Oregon Railroad and Navigation territory to Puget Sound ports.

This rate would actually benefit the

Mr. Bacon, which lasted for more than an hour.

Commander Southerland said that a serious outbreak against the administration of President Caceres had taken place, and was continuing in and around Monte Cristi, but that the American squadron was able to protect American interests, and had the situation well in hand.

DECISIVE STEP LIKELY.

It is intimated from various sources that the position of the United States in regard to Santo Domingo is daily becoming more and more complicated, and that a decisive step is likely to be taken in the near future. So far as can be learned from officials, the present attitude of the government is one of waiting, and the Caceres administration will not be supported any more than was the case in the past, providing the incoming administration will guarantee the continuance of American collection of customs, which are now being deposited in the National Bank of New York for future distribution.

WASHINGTON, Aug. 21.—(Exclusive Dispatch.) After the receipt of the telegram from Commander Southerland of the Dixie, commanding the American naval forces in Dominican waters, Col. Colton, who is the American collector of customs in Santo Domingo, had a conference this evening with the Assistant Secretary of State.

WASHINGTON, Aug. 21.—(Exclusive Dispatch.) Chief Red Cap and his band of Ute Indians are still camped on the North Platte River, from the site of old Fort Fetterman westward several miles to and beyond Sage Creek.

Chief Red Cap and several minor chiefs today said that the Indians are en route to the Rosebud agency to visit the Sioux, but they have made no move to depart, and alarm over their presence continues.

Indians who will talk say that they have been robbed on the reservation. They do not like the way the government has treated them, they say, and will not return. Many of them have sold their ponies and bought ammunition.

SHERIFF MAKES READY.

Sheriff Messenger has prepared to place on duty, on short notice, a great many well-armed deputies. This will be his first step if an outbreak occurs. A collision such as occurred on Lightning Creek several years ago is feared.

Capt. C. G. Hall of the Fifth Cavalry, Indian agent of the Ute reservation, is authority for the statement that the situation is serious. Some of the Indians have secured whisky from some source, and have been seen drunk.

"DOING THINGS."

The redskins are surly and defiant, and have been holding pow-wows and dances since they went into camp. Gaudily-painted, naked medicine men have participated in the dance.

The Indians have been feasting on fresh beef and mutton, and have been killing range stock, as they brought no fresh meat with them. Several sheep ranches have been robbed, and reports of depredations are reaching Sheriff Messenger.

POPE'S BROTHER HOLDS THIEF.

Postmaster Sarto of Grazia, Italy, Finds Burglar in House on Returning Home.

(BY DIRECT WIRE TO THE TIMES.)

MANTU (Italy) Aug. 21.—(Exclusive Dispatch.) Angelo Sarto, brother of the Pope and postmaster in the village of Grazia, on returning to his home at night, found a burglar in the house.

He grappled with the intruder, who had collected a quantity of plunder, and was almost ready to depart with it.

They engaged in a desperate struggle, but finally Signor Sarto threw his antagonist and held him till the police came in response to his cries.

Sarto was not injured in the encounter.

TOO SERIOUS FOR SPORT.

Suggestion of Contest of Gunners of American and British Navies "Quite Inadmissible."

(BY DIRECT WIRE TO THE TIMES.)

LONDON, Aug. 21.—(Exclusive Dispatch.) With reference to Admiral Bradford's suggestion for a marksmanship contest between British and American navies, a flag officer in the British navy writes as follows:

"In my view, the proposals which have been made in America, suggesting that they appear to me, by a naval officer for a friendly competition by crack crews from British and American ships in neutral waters, is quite inadmissible."

"The question is far too serious to admit of its being made a game, and the settling of the terms of gunnery competitions would certainly give rise to misunderstanding."

He admits that if American gunners make the records they are reported to make they are better shots than the British gunners.

ROCKEFELLER RUINED CHURCH.

Brooklyn Pastor's Petition in Bankruptcy Recalls Enmity Toward Baptist Tabernacle.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Aug. 21.—(Exclusive Dispatch.) When Rev. Daniel C. Potter of No. 1606 Avenue Avenue today, in the United States District Court, Brooklyn, filed a petition in voluntary bankruptcy, he brought to an end and the long and bitter warfare waged as a result of John D. Rockefeller's alleged enmity for the Tabernacle Baptist Church, Second Avenue and Tenth Street, during which the church was ruined.

In his petition in bankruptcy, Rev. Potter, who was pastor of the church when Rockefeller began the warfare in his determination to get possession of the property, states that his liabilities are \$11,571.88. He states that the debts are for judgments obtained against the church, his assets are placed at \$6000.

HER SECOND OPERATION.

Mrs. Reginald Vanderbilt to Go Under the Surgeon's Knife Today at Sandy Point.

(BY DIRECT WIRE TO THE TIMES.)

NEWPORT (R. I.) Aug. 21.—(Exclusive Dispatch.) Mrs. Reginald G. Vanderbilt will submit to an operation tomorrow, when it is hoped that not only the cause of her serious attack of illness in Saratoga, a few days ago, but also the reason of her ill health for some time, will be removed.

The operation will be performed at Sandy Point, the Vanderbilt country place, by Dr. William T. Bull, and there will be present Dr. Austin Flint, Jr., of New York, and Drs. Charles W. Stewart and Douglas P. A. Jacoby of Newport.

It is not definitely stated, but it is understood that Mrs. Vanderbilt's ailment has been diagnosed as gall stones, for which she had an operation, a little more than a year ago.

WATCHING THE INDIANS.

SURLY BIG CHIEFS ARE AGIN' THE GOVERNMENT.

(BY DIRECT WIRE TO THE TIMES.)

DOUGLAS (Wyo.) Aug. 21.—(Exclusive Dispatch.) Chief Red Cap and his band of Ute Indians are still camped on the North Platte River, from the site of old Fort Fetterman westward several miles to and beyond Sage Creek.

Chief Red Cap and several minor chiefs today said that the Indians are en route to the Rosebud agency to visit the Sioux, but they have made no move to depart, and alarm over their presence continues.

Indians who will talk say that they have been robbed on the reservation. They do not like the way the government has treated them, they say, and will not return. Many of them have sold their ponies and bought ammunition.

SHERIFF MAKES READY.

Sheriff Messenger has prepared to place on duty, on short notice, a great many well-armed deputies. This will be his first step if an outbreak occurs. A collision such as occurred on Lightning Creek several years ago is feared.

He states that the debts are for judgments obtained against the church, his assets are placed at \$6000.

## PITH OF NEWS FROM THE MIDDLE WEST.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Aug. 21.—(Exclusive Dispatch.) Chicago formed an island of reeking, suffocating heat today, surrounded by a circle of rain and falling temperatures. The one brief thunderstorm which visited the city served to accentuate the sufferings of the thousands who toiled beneath the blazing, pitiless sun.

Four deaths and eighteen prostrations was the record when the night breezes brought a slight measure of relief.

Prof. Frankenfield of the Weather Bureau could hold out little hope of cooler weather, and predicted that for another day, at least, the temperature would remain in the neighborhood of the 90s. The outlook is made the more serious, in view of the fact that an increase in the humidity is to be expected. The official temperature range was from 75 to 91 degs.

DESTROYS MINING CAMP.  
DUNN'S BROTHER OFFICERS OF THE NAVY CLEARED.  
DEFENDS AGAINST SCANDAL CHARGE.  
Leaves Two Hundred Homeless.  
Dunn Would Exonerate Brother Officer.  
SUGAR PRICES DROP.  
RESULT OF COMPETITION.  
SAN FRANCISCO, Aug. 21.—[Exclusive Dispatch.] The price of sugar has dropped from \$5.15 to \$4.20. In New York the price is \$4.30, while at the Missouri River it is \$5.  
WATER COMPANIES AT WAR.  
BAY CITIES SUE ITS RIVAL.  
SAN JOSE, Aug. 21.—[Exclusive Dispatch.] The Bay Cities Water Company, which is the defendant in numerous suits brought by fruit growers in the valley to restrain it from diverting the water of Coyote creek into the San Joaquin River, has filed a suit against the San Joaquin Water Company, the Spring Valley Water Company and the Suburban Company, to condemn certain lands owned by them and forming a strip directly across the reservoir site of the plaintiff.  
SLOPE BRIEFS.  
GOLDFIELD, Aug. 21.—[Exclusive Dispatch.] A private telegram received here today reports a shooting affray at the gold camp of Ramsey, about twenty-five miles from Virginia City. "Tom" Ramsey, a millionaire mine owner, was shot and fatally injured by a man named Brown who had, it is alleged, jumped one of his claims.  
FOREST FIRES BURN VILLAGES.  
ST. JOHNS (N. B.), Aug. 21.—[Exclusive Dispatch.] Forest fires are raging in various parts of New Brunswick and Quebec provinces. A dispatch says the village of St. Charles, Caplan, in Quebec province, and another village near by, have been practically destroyed. Seventy buildings have burned in the two villages. A large number of persons are homeless. The damage to crops and timber lands in the vicinity is heavy as the fire is still spreading. Other fires are burning near Balmoral and Campbellton.  
SCULPTOR WARD RE-MARRIES.  
NEW YORK, Aug. 21.—[Exclusive Dispatch.] J. Q. A. Ward, dean of American sculptors and for more than half a century a leader in art, was betrothed today with congratulations on his marriage. It was a surprise to his legion of friends to learn that the noted sculptor, who has just passed the seventy-sixth milestone in life's journey, had taken his third helpmate, many years his junior. Ward would not say whom he had married.  
RAINS WORKING RUIN AT ROOSEVELT DAM.  
PHOENIX (Ariz.), Aug. 21.—[Exclusive Dispatch.] The result of heavy rains in Salt River watershed, the work of the contractors on the government storage dam at Roosevelt for the past three or four months has been greatly retarded. Unless the water falls rapidly during the night, everything accomplished to date in the way of construction, together with much machinery, will be washed away.  
The water backed up all day by the cofferdam in a quantity too great for the sluicing tunnel. At 6 o'clock to night it broke over the upper cofferdam and by 9 o'clock the whole volume of the river was spilling through

est fires all last night and today to save their homes. In spite of their efforts, the place seems doomed. A butcher shop, a slaughter-house and several head of cattle were consumed. The De Can shingle mill near Fernvale burned this afternoon, causing a total loss of \$10,000. Forest fires, thought extinguished by recent rains, are springing up again in several directions.  
Regents Accept Mackay Gift.  
BERKELEY, Aug. 21.—[Exclusive Dispatch.] The regents of the University of California today, formal acceptance was made of the gift of \$100,000 to the university by Mrs. John Mackay and her son, Clarence Mackay, for the endowment of a professorship of electrical engineering and the support of research work along electrical engineering lines. Prof. Clarence L. Cory was appointed first incumbent of the chair.  
Policy Holders to Sue Foreigners.  
SAN FRANCISCO, Aug. 21.—[Exclusive Dispatch.] The trustees of the Policy Holders' League have decided that it will be necessary to bring suits in Germany and Austria against the Austrian Phoenix, the North German of New York, the North German of Hamburg, the Rhine of Muenster and the Trans-Atlantic insurance companies, in addition to suits in the United States. The losses admitted, in gross, of the five companies in San Francisco exceed \$10,000,000.  
LIFE INSURANCE FORGERY FOUND.  
WEALTHY WIDOW AND BROTHER ALLEGED SWINDLERS.  
New York Company Causes Arrests in Boston After Having Suspicion Aroused by Number of Policies Written Shortly After Being Written—Search for Leader of Gang.  
[BY DIRECT WIRE TO THE TIMES.] BOSTON, Aug. 21.—[Exclusive Dispatch.] The police arrested today on a warrant sworn to by Albert D. Pickford, acting for the New York Life Insurance Company, Mrs. Mary A. Tenneyson, a wealthy Roxbury widow, and her brother, Dennis Griffin. The authorities claim that this action has uncovered a big graveyard insurance swindling gang. The specific charge against the prisoners is that of being accessories before and after the fact of forgery to a life insurance application.  
It is claimed that several big life insurance companies have been swindled by this gang out of thousands of dollars. Suspicion was aroused by the number of policies collected shortly after being written, and the companies combined to hunt down the gang.  
The police are now searching for the alleged ringleader, one Thomas Nelson, who posed as an applicant for a policy, and successfully passed various medical examinations, as he was physically in perfect condition. Mrs. Tenneyson has collected insurance on her husband and her daughter, both dying within a year.  
PITTSBURGH MILLIONAIRE SUE.  
Plaintiff Charges Wife of Defendant With Alienating Affections of Her Husband.  
[BY DIRECT WIRE TO THE TIMES.] DENVER, Aug. 21.—[Exclusive Dispatch.] James W. Hair, a Pittsburgh millionaire, is involved in a suit filed today by Mrs. Alice L. Hair, who alleges the alienation of her husband's affections. Mrs. Hair has been regarded as the widow of J. C. Hair, son of the Pittsburgh magnate. The latter has been living with his daughter-in-law until a few days ago, when he closed his Colfax avenue mansion and the couple left for Pittsburgh.  
Mrs. Hair charges that Mrs. Hair also is known as Rose C. Deahl and is the millionaire's darling. Mrs. Hair says she got her husband to go to California, but that Mrs. Hair followed him to that state, and that he came to Denver, whither she also followed him. Mrs. Hair wants \$20,000 damages, the custody of two minor children, a decree of separate maintenance and alimony.  
VOLIVA AND DOWIE DISAGREE.  
CHICAGO, Aug. 21.—[Exclusive Dispatch.] John Alexander Dowie said last night that all negotiations between himself and Wilbur Glenn Voliva for settlement of the Zion city tangle have been declared off. Dowie issued a statement last night in which he says: "All attempts at negotiations have ended in failure. I made a clean-cut proposition, but Voliva and his adherents refused to consider it. Then I offered to consider a proposition from him, but it was stated that they had none to offer. Hence negotiations are closed and there is nothing more at this time to say."  
FOREST FIRES BURN VILLAGES.  
ST. JOHNS (N. B.), Aug. 21.—[Exclusive Dispatch.] Forest fires are raging in various parts of New Brunswick and Quebec provinces. A dispatch says the village of St. Charles, Caplan, in Quebec province, and another village near by, have been practically destroyed. Seventy buildings have burned in the two villages. A large number of persons are homeless. The damage to crops and timber lands in the vicinity is heavy as the fire is still spreading. Other fires are burning near Balmoral and Campbellton.

Proposition to Dredge Channel from Where She Now Lies to Deep Water Is Being Considered—Repeated Shocks Render Boilers Useless—Capt. Saunders Suffering.  
[BY THE ASSOCIATED PRESS—A.M.] HONOLULU, Aug. 21.—At noon today the condition of the stranded steamship Manchuria was said to be worse. A proposition is now being considered to dredge a channel from where the Manchuria now lies to deep water. This is believed the only feasible plan, but it is doubtful whether the vessel will last long enough to carry it out.  
The stranded steamer is suffering greatly and the general opinion of those at the scene of the wreck is that the vessel is doomed. Four of her eight boilers have been rendered useless by repeated shocks against the reef, damaging their foundations. The port engine also is out of commission on account of the breaking of its main pipe. The vessel is believed to be about twelve feet farther inshore than when she struck, in spite of almost constant tugging in the opposite direction. She is leaking amidships.  
RESTS ON HARD CORAL.  
Apparently the steamer rests amidships on a patch of hard coral on which she rolls and pitches as on a pivot, pounding especially hard on the port bilge. Every shock jars her terribly from bow to stern.  
Capt. Saunders says the only chance to save the ship is to float her soon. It is doubtful whether there is power enough in Honolulu to do so, and aid from San Francisco is wanted. The passengers are demanding that the steamship company provide them with accommodations.

## BRYAN IN CHICAGO BIG EVENT.

RECEPTION, THEN A LUNCHEON. [BY THE ASSOCIATED PRESS.—P.M.]

CHICAGO, Aug. 21.—Arrangements for the entertainment of William J. Bryan during his visit to Chicago, early next month, includes a reception and luncheon at the Iroquois Club and a banquet at the Jefferson Club. It is the aim of the Entertainment Committee to make the latter an event of great political importance. Accommodations for an attendance of from 600 to 1,000 have been provided and reservations made to date are said to point to a large attendance.

Among those to whom invitations to be present and to make addresses have been sent are: Congressman W. R. Hearst, New York; Senator Robert Taylor, Tennessee; Congressman Champ Clark, Missouri; and Mayor Tom L. Johnson of Cleveland.

Attendance at the Iroquois Club luncheon is to be limited to members of the club and representatives of the Jefferson Club.

## Election Proclamation Issued.

OKLAHOMA CITY, Aug. 21.—The election proclamation for Oklahoma and Indian Territory, setting aside November 6 as the time for the election of delegates to the national convention, and November 20 for the convening of that body, was issued today by Gov. Frantz and Judge W. H. Clayton, chairman of the respective boards of Oklahoma and Indian Territories. The Territories are divided into eleven districts.

## NEGRO TROOPS TO LEAVE TEXAS.

ACTION IS IN ACCORDANCE WITH PRESIDENT'S DIRECTION.

Report to War Department on Disturbances at Brownsville Shows That Racial Antipathy Is at Bottom of Trouble—Citizens Still in Great Nervous Tension.

[BY THE ASSOCIATED PRESS.—P.M.]

WASHINGTON, Aug. 21.—The negro Federal troops have been ordered out of Texas. Instead of going to Fort Ringgold, which is about 100 miles up the Rio Grande from Fort Brown, the battalion of the Twenty-fifth Infantry has been ordered to Fort Reno, Okla. This action is in accordance with the direction of the President, and also is recommended by Gen. McCaskey, commanding the Department of Texas. By direction of the President, also, Gen. J. Franklin Bell, chief of staff, will make a thorough investigation of the whole Brownsville affair and report to the President.

Fort Brown is to be abandoned. The company of the Twenty-sixth Infantry which was sent there today, will not stay very long. Its duty is to pack up all the movable government property, which will be shipped to other points, when the troops will be ordered away.

The investigation now under way will be continued by Maj. Blockson of the Inspector General's department, who is investigating the trouble between the citizens of Brownsville and the negro troops at Fort Brown. The state that every effort will be made to find out the facts and fix the responsibility for the disturbance, and any soldiers found guilty will be punished.

Gen. Ainsworth today made public a report received from Maj. Blockson of the Inspector General's department, who is investigating the trouble between the citizens of Brownsville and the negro troops at Fort Brown. The state that every effort will be made to find out the facts and fix the responsibility for the disturbance, and any soldiers found guilty will be punished.

Gen. Ainsworth today made public a report received from Maj. Blockson of the Inspector General's department, who is investigating the trouble between the citizens of Brownsville and the negro troops at Fort Brown. The state that every effort will be made to find out the facts and fix the responsibility for the disturbance, and any soldiers found guilty will be punished.

## LUNCH HERE TODAY.

A dainty, homelike, appetizing lunch, in the cozy, comfortable lunch room on the fourth floor. It is "different." try it. Prices are reasonable.

## NEWS OF "THE NEW."

Hasn't the weather brought to your mind with all its force the need of that new fall suit and coat, and that heavier wrap? It looks as though summer was saying good-bye early this year.

Fall can't be too early—the store is ready.

Fall suits for women are being added to every day. Some genuine surprises at \$16.50. Prince Chap styles are favorites; mannish coat effects. Gray is a good color. Second floor.

NEW GRAY SUITINGS—The kind you want if you are going to make that new skirt or dress, or have it made yourself; wiry, hard wearing weaves, nobby patterns of stripes and checks; some of the checks are ghost-like, almost invisible; remarkably low prices on these, too; different grades or widths; a big variety. Aisle 4.

NEW SUITS FOR MEN.

Fall styles and here are the late overcoats—styles men will wear this fall. Styles that fit well and are made so perfectly that really, unless you have made up your mind unchangeably and want to spend more money than is necessary, there's no need of having a suit made to order.

But pass through every section of the store and you'll find clearance prices of the most attractive sort on summer goods; right next to them surprising values on the new things will bob up and greet you.

TAKE NEW CRAVENETTES.

Take the new tourist coats—the sweetest I've seen for women—on the second floor; some at \$7.50, take trimmings, but no matter what you want, come to the Broadway and make savings on summer things, too. This store is to make new fashions this fall in selling the things you want for less.

It's an all wool cheviot serge, good heavy weight, the kind you make up with a lining; deep, rich black. Just 200 yards of it. \$1.25 quality. On sale Aisle 5, while it lasts, today, at 69c yard.

36-Inch Black Peau de Soie 89c

It's all silk; a good quality; rich and lustrous with gros grain back. A silk such as many stores would sell for \$1.25. This will make swell separate skirts, waists and coats. It's a value to make the white silks envious. Find it, Aisle 4, at 89c yard.

54-Inch Black Serge at 69 Cents a Yard

It's an all wool cheviot serge, good heavy weight, the kind you make up with a lining; deep, rich black. Just 200 yards of it. \$1.25 quality. On sale Aisle 5, while it lasts, today, at 69c yard.

Arabsian Curtains at 98c Pair

Just the mere announcement should sell them all quickly today; 98c a pair is a low price for white curtains, and these are Arabsian; 40 to 50 inches wide and 3 yards long. New and very pretty patterns to select from; just the kind you want for the home; such as many stores would ask you \$1.25 for. Today, third floor, 98c pair.

WHITE CURTAINS AT \$1.98.

Good \$3.00 values; they are 50 inches wide and 3 1/2 yards long; handsome floral designs and with plain centers; scroll borders in fine Brussels effect and madras weave; \$5.00 values: \$1.98 pair, third floor, today.

\$2.50 CURTAINS AT \$1.35.

Beautiful Arabsian lace curtains, 60 inches wide and 2 1/2 yards long; \$2.50 values if they were priced the way they ought to be; those rich Grecian border designs, fitting for any room. \$1.35 pair, third floor, today.

COUCH COVERS \$1.25.

Good big ones, 60 inches wide and 3 yards long; made of reversible Oriental tapestry fringed all around; big enough for the largest couch. \$2.00 values at \$1.25, third floor, today.

\$1.50 SCREENS AT 98c.

Made with solid oak frames filled with good silkoline; pretty colors and patterns; three panel screens; \$1.50 value at 98c. Third floor today.

50c Drawers 39c

They're made of good muslin, with wide ruffle, trimmed with torchon lace edge and tucks, and there are some with wide hemstitched tucks, cluster of small tucks between; 50c regularly; today, on the second floor, 39c.

CHEMISE 59c.

Of good muslin, cut very full, trimmed with Val lace heading, lace edge around neck and shoulders. Finished with baby ribbon inserted. Today's leader, second floor, 59c.

CHILD'S DRESSES 75c.

Made of plain pink and blue chambray, checked gingham; they're in French and Buster Brown styles, trimmed with white plique cuff and white belt. Many of them in the lot worth \$1.25; it's an opportunity for mothers. On the second floor, today, each, 75c.

CHILDREN'S DRESSES 35c—Small ones for children 1 to 4 years; pink and blue checked gingham, trimmed with embroidery and wash braid; 40c values. Today, second floor, each, 35c.

DOOR PHONES EXCHANGE 337

# The Broadway Department Store

BROADWAY COR. FOURTH LOS ANGELES, ARTHUR LETTS, PROPRIETOR

## We're Having a Great Silk Week

There is promise of being a new record for a week's selling by Saturday, closing time.

When we announced last Sunday 20,000 yards of white China Silk to go on sale Monday morning, we knew it would make an unusual stir. We planned it to be an unusual event, and it is proving so.

Just think of the quantity of one kind of silk; think of the energy it took to get them; think of the ability necessary to handle such a quantity quickly, and in one lot.

The more you think of it the more you'll see the real power that is back of this Broadway silk section, and the reason why it is to your advantage to buy all your silks here. The event continues today. If you haven't been here yet, you surely want to share the values. Note these prices and see how economically you can buy material for a waist every bit as pretty as the one in the picture.

More White China Silk at 19c Yard

It's a trade winning price; it's a silk the equal of that you have been in the habit of paying 25c for; 20 inches wide. White, soft and pretty. In the Annex today as long as it lasts, 19c yard.

WHITE CHINA SILK 44c YARD

This is 27 inches wide. Heavy weight so wanted for full costumes and men's wear. Aisle 5, today, 44c yard.

WHITE CHINA SILK \$1.23.

Full yard wide good \$1.75 value. Aisle 5, today, \$1.23 yard. Other prices very important. In the Annex and Aisle 5.

Colored Taffeta at 68c Yard

19 inches wide, a 75c and 85c quality. Fully 50 different shades. Soft and very pretty finish. Suitable for street and evening wear. The kind we think so much of we guarantee it to give satisfactory wear. Aisle 5, today, at 68c yard.

36-Inch Black Peau de Soie 89c

It's all silk; a good quality; rich and lustrous with gros grain back. A silk such as many stores would sell for \$1.25. This will make swell separate skirts, waists and coats. It's a value to make the white silks envious. Find it, Aisle 4, at 89c yard.

NOW IS THE TIME TO BUY A CLOCK

S. Nordlinger & Sons

Jewelers—323 South Spring Street—Established 1869

counters between soldiers and citizens. About midnight of the 13th a party of soldiers, probably hired to offend, made a raid through several squares of the town, firing 75 to 100 shots, killing a bartender and dangerously wounding a lieutenant of police. They also fired into several houses in which women and children were crowded, and several were shot. The people are still in a great nervous tension and the men nearly all carry arms openly at night. The women and children are still frightened. I consider it necessary to remove the colored troops—the sooner the better.

The War Department today received a dispatch from Gen. McCaskey, commanding the Department of Texas, stating that a company of the Twenty-sixth Infantry had left the main camp near Austin, Texas, for Fort Brown on a special train, and probably would arrive there today. The battalion of the Twenty-fifth Infantry (the negro troops) will march to Fort Ringgold, which at present is unoccupied, as soon as the company of the Twenty-sixth Infantry arrives.

NO CAPTAINCY FOR FILIPINOS.

LAW PREVENTS PROMOTION. [BY THE ASSOCIATED PRESS.—A.M.]

WASHINGTON, Aug. 21.—Some better method of advancement of officers of the Philippine scouts is advocated by Brig.-Gen. James A. Buchanan, retired, commander of the Department of the Visayas, in his final report to the War Department.

Under the present law, lieutenants cannot be promoted to the grades of captain. Many lieutenants of the Philippine scouts are and have been for the last five years performing a captain's duty, and have kept their companies in excellent condition, only to have a first lieutenant of the line supersede them in command, with a captain's rank and pay.

CHINESE STUDENTS CONFER.

AMHERST (Mass.), Aug. 21.—A conference of Chinese students, 12 in number, of the Department of the Visayas, began here last night with an address by Paul H. Linn of Columbia University.

## Medicine For All Mankind

# SAWING WOOD IS THIS DANE.

THOMPSON NOT WORSTING OVER  
WHO'S FAVORITE.

"Rawhide" Kelley a Good Match for Human Spider—Works as Hired Man Under Farfeit—A Story of a William Gost Butting Dane and That Tin Ear.

While the remainder of the fighting world is rushing madly about trying to guess out a winner of next Tuesday night's battle, a quiet fellow with a cauliflower ear, thick neck and a physique as hard as an oak, is working quietly out at Baldwin's ranch, with but one object in view, and that is to beat Dick Hyland at his own game.

This boy is the "rube" farmer of Sycamore, Ill., and like all fighters of his race, he is one of the quietest, most unassuming Danes that ever entered the ring.

There is a distinction about the Danish fighters that is not found in any other nationality. They seldom blow about ability, keep good hours, are temperate in all things, and game to the core. There are three of them in the fighting business that have the reputation of never having lost what the word "quit" means. They are Billy Nelson, Maurice Thompson and Johnnie "Cyclone" Thompson.

Whether they inherit their fighting qualities from their sturdy Norse ancestry or acquired it as a heritage from their fathers whose tenacity of spirit helped him climb from the wilderness of the Northwest does not appear, but it is a fact that few ever saw a Dane show the white feather.

Thompson, like Jeffries, likes the pastoral life, though he acquired this taste long before Jim stopped making bellers to take up the plowshare.

At Sycamore with Thompson in his old companion and trainer, "Rawhide" Kelley, who has played every part on Thompson's ranch, from chore boy to manager. "Rawhide" runs a close second to Spider Kelley in physique and "Cyclone" alleges that he has found him an excellent utensil about his striking time, poles being unnecessary.

"Rawhide" has just rolled in from the Illinois ranch, where he has been working under a forfeit as "fired man."

This is the only way Thompson would have him on the place, for "Rawhide" likes ranch work about as much as a Billy goat likes a thunder shower. But he is a good trainer, and although "Cyclone" was well supplied, he found it cheaper to send for "Rawhide" than pay collect charges on telegram begging for a release from his match with a moving machine.

Kelley can do nothing to the fight but Thompson, and gives out the information that Thompson is in excellent condition, and capable of going to a finish fight.

"There are many stories as to how 'Cyclone' got his tin ear," says "Rawhide," "but I'm giving you the straight dope." Thompson got that ear the only time he was knocked out. He had bought a goat for his youngster, and the young epicure was a butter. "Cyclone" was training for a battle with Nelson, and had heard about the Dane's butting, so he padded his head with an old sweater and took on Billy for a set-to in the barnyard. When the goat landed square on "Cyclone's" head it was all right, but it seemed a shift and copped him one on the side of the head and put him out, and gave him the ear.

"The ear?"

"Both of 'em."

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Both of them.

Nelson's manager, Billy Nolan, reading the news in Goldfield, surrounded by his bottle-holders.

the masses of rock are axle high, and the whole stretch is in bad shape. In another place there is a bed of soft, sticky mud more like cement than anything else. This has been washed over the road to the depth of three feet, and furnishes a nasty spot to go through.

Fortunately, the obstructions in the road are of such a character that they can be removed easily, and before the race the road will be in as good condition as ever.

Interest in the race increases every day. It is the longest ever held in this part of the country, and the nearest approach to the European events that now have usurped attention from track events. The sporting character of the race is beyond question—besides that, it shows how the automobile is steadily doing work under conditions and over roads that horses cannot negotiate with the speed, the constancy and the reliability of the machine.

**MID-WEEK SHOOT.**

Local Gunbustlers Practicing for the Big Interstate Tournament in September.

The regular mid-week shoot of the members of the Los Angeles Gun Club will occur today at Sherman. Many of those who hope to participate in the coming interstate tournament, which occurs September 8, 9 and 10, are regular attendants at these practice shoots.

Bob Bungay, who won the amateur championship at the Pacific Coast shoot, held at Monterey two weeks ago, is showing great form at the trap, and gives promise of setting a fast pace for the crack eastern powder burners who are slated to appear here next month. His shooting last Sunday started even his close associates, who broke 35 bluebirds in succession, making his final score 34 out of a possible 36.

Guy Lovelace is also showing good form and gives promise of assisting in upholding the honor of the local club. At his last appearance he broke 31 bluebirds out of a possible 100.

**STATE MARKSMEN NAMED.**

Expert Riflemen Qualifying for National Competition at Seagirt Number Eighteen.

[BY THE ASSOCIATED PRESS.—P.M.]

SACRAMENTO, Aug. 21.—Gov. Pardee and Adj.-Gen. Lauck have detailed the following officers and enlisted men of the National Guard of California as members of the rifle team to be sent from this State to the national match at Seagirt, N. J.:

Capt. Charles J. Fuller, Salinas; Capt. John G. Lee, Woodland; Capt. G. L. Holtum, San Jose; Capt. Newell Vanderhill, San Rafael; Lieut. E. G. Griffin, Woodland; Serg. C. Bailew, Chico; Serg. C. A. Rice, Chico; Artillery C. H. Manville, Colusa; Private F. R. Newland, Colusa; Quartermaster Serg. W. T. Rutherford, Placerville; Corp. C. E. Barker, Placerville; Corp. W. A. Guiler, Petaluma; Private A. H. Sanborn, Santa Rosa; Private W. A. Eddy, Hanford; Corp. A. E. Shalish, Riverside; Private C. F. Backstrand, Riverside.

**MRS. MUNN QUALIFIES.**

Elimination in Del Monte Golf Tournament Leaves Los Angeles Lady in the Goings.

[BY THE ASSOCIATED PRESS.—P.M.]

PACIFIC GROVE, Aug. 21.—Golfing was resumed this morning at Del Monte links under favorable skies. The men who qualified yesterday to enter the contest for the Del Monte cup made the rounds over eighteen holes with handicap winners repeating the same in the afternoon. The day's score follows:

Eight players were eliminated in

the morning round, viz.: Byington, Spensblack, Crabtree, Heazleton, Hayne, Wright, Grant and Baker. After luncheon the new pairs were: C. E. Maud and R. G. Hanford; Maud winner, 5 up, 4 to go. H. W. Sherwood and M. Dore; Sherwood, 3-2. G. J. Kalne and C. B. Byington; Kalne won, C. T. Crocker and S. G. Dunham; Crocker, 3-2.

In the afternoon thirteen ladies participated in the qualifying contest for the right to play in tomorrow's match. The course was over eighteen holes and only the best eight could qualify. This was the score: Miss A. N. Smith, 97; Mrs. C. B. Wingate, 114; Mrs. G. Heazleton, 100; Mrs. H. Munn, 101; Mrs. J. P. Whitney, 105; Miss F. B. Ives, 108; Mrs. W. S. Martin, 95; Mrs. R. G. Hanford, 107; Miss Armbury, 98; Miss Alice Hager, 98; Mrs. H. H. Sherwood, 98.

**BIG BUN FOR RESERVATIONS.**

Miners Pouring in Their Shocks for Seats at Gans-Nelson Championship Battle.

[BY THE ASSOCIATED PRESS.—P.M.]

GOLDFIELD (Nev.), Aug. 21.—The arena for the big fight is well under way, and there is no doubt as to its completion by September 1. Its seating capacity of 10,000 is certain to be well taken up, judging by the advance sale of seats. More than 10,000 for reservations have been received by the club already, and nearly all the boxes are sold.

A heavy rain and at times a sleet precluded much outdoor work on the part of the fighters today. The drop in temperature is very marked, and was very welcome to both fighters, who are already "pretty fine," as to weight. Gans left his weight at 133 pounds today, and Nelson's 134½ pounds, likewise.

A delegation of miners from the Sullivan this afternoon, and asked for permission to have their physician examine Gans.

The examination was entirely satisfactory to all concerned. Gans's physical condition was found to be perfect.

**WEEDING OUT WEAKLINGS.**

Newport Lawn Tennis Tournament Is Narrowing Down to National Racquet Celebrities.

[BY THE ASSOCIATED PRESS.—P.M.]

NEWPORT (R. I.), Aug. 21.—An excellent beginning was made today in weeding out the record-breaking list of contestants in the opening round of the national lawn-tennis championship in singles. There were fifty-three matches on the list in the first round of the singles, and all but one were decided before the play closed for the day. The default of Waldner and Emerson, of the West, to Hackett and Alexander, of the East, in the doubles, gave room for the singles match between R. D. Little and F. C. Anderson in the court.

This contest was decided in Little's favor in straight sets, 6-3, 6-4, 8-4. Neither of the opponents of Larned and Behr appeared, and these two will meet tomorrow in the second round of the national championship.

The match between the two Longwood players—D. C. Wright, brother of the champion, and N. W. Niles, attracted considerable attention. Wright winning, 7-5, 6-1, 6-2.

Clothier won his way into the second round in his match with H. A. Macmillan, of Providence, and Hackett of New York was also successful in his contest with G. T. Eames.

The features tomorrow will be the challenge match in doubles, Hackett and Alexander playing the present title holders, Ward and Wright.

**Schwartz Buys Pennaria.**

SARATOGA, Aug. 21.—Pennaria, winner of the Grand Union Hotel Stakes here a few days ago, was sold today by Frank O'Neill to M. L. and C. W. Schwartz of New York for about \$25,000.

The eastern trip of Capt. A. C. Way, the veteran tennis enthusiast, gives promise of greatly stimulating the game in Southern California, and may lay the foundation for some great match play in the future.

While in the east the "father of California lawn tennis" is studying the methods and procedure of eastern clubs, with a view to injecting even more enthusiasm and life into the game when he returns to his southern home. He will participate in the Newport tournament, which occurs this week, and believes he has an excellent opportunity to finish well up toward the front. After this tournament he will go to Cincinnati, being joined there by the Sutton sisters, May and Florence, and together they will play for the honor of California.

Following the close of the tri-State tourney at Cincinnati, the party will return to California to participate in the State tournament at San Rafael.

**Eyton Plays Handball.**

Charley Eyton and Dick Dunnigan hooked up in a handball match yesterday at the Los Angeles Athletic Club, and the former defeated the latter by his medicine. They played two games, the first of which was a hard-fought struggle, resulting in a score of 21 to 20 in favor of Eyton. The second resulted disastrously for the oarsman, he securing but 4 points while Eyton was making the necessary 21.

**Cherry Circle Wins Lipton Cup.**

CHICAGO, Aug. 21.—Cherry Circle, flying the colors of the Chicago Athletic Association, won the Lipton Cup by finishing fourth in today's race to Bill Foster, Columbia Yacht Club; Mendota, Milwaukee Yacht Club, and the Toledo Yacht Club. The race, Cherry Circle 26.7 points, Bill Foster, which won today's second, has 24.4 points.

the morning round, viz.: Byington, Spensblack, Crabtree, Heazleton, Hayne, Wright, Grant and Baker. After luncheon the new pairs were: C. E. Maud and R. G. Hanford; Maud winner, 5 up, 4 to go. H. W. Sherwood and M. Dore; Sherwood, 3-2. G. J. Kalne and C. B. Byington; Kalne won, C. T. Crocker and S. G. Dunham; Crocker, 3-2.

In the afternoon thirteen ladies participated in the qualifying contest for the right to play in tomorrow's match. The course was over eighteen holes and only the best eight could qualify. This was the score: Miss A. N. Smith, 97; Mrs. C. B. Wingate, 114; Mrs. G. Heazleton, 100; Mrs. H. Munn, 101; Mrs. J. P. Whitney, 105; Miss F. B. Ives, 108; Mrs. W. S. Martin, 95; Mrs. R. G. Hanford, 107; Miss Armbury, 98; Miss Alice Hager, 98; Mrs. H. H. Sherwood, 98.

**BIG BUN FOR RESERVATIONS.**

Miners Pouring in Their Shocks for Seats at Gans-Nelson Championship Battle.

[BY THE ASSOCIATED PRESS.—P.M.]

GOLDFIELD (Nev.), Aug. 21.—The arena for the big fight is well under way, and there is no doubt as to its completion by September 1. Its seating capacity of 10,000 is certain to be well taken up, judging by the advance sale of seats. More than 10,000 for reservations have been received by the club already, and nearly all the boxes are sold.

A heavy rain and at times a sleet precluded much outdoor work on the part of the fighters today. The drop in temperature is very marked, and was very welcome to both fighters, who are already "pretty fine," as to weight. Gans left his weight at 133 pounds today, and Nelson's 134½ pounds, likewise.

A delegation of miners from the Sullivan this afternoon, and asked for permission to have their physician examine Gans.

The examination was entirely satisfactory to all concerned. Gans's physical condition was found to be perfect.

**WEEDING OUT WEAKLINGS.**

Newport Lawn Tennis Tournament Is Narrowing Down to National Racquet Celebrities.

[BY THE ASSOCIATED PRESS.—P.M.]

NEWPORT (R. I.), Aug. 21.—An excellent beginning was made today in weeding out the record-breaking list of contestants in the opening round of the national lawn-tennis championship in singles. There were fifty-three matches on the list in the first round of the singles, and all but one were decided before the play closed for the day. The default of Waldner and Emerson, of the West, to Hackett and Alexander, of the East, in the doubles, gave room for the singles match between R. D. Little and F. C. Anderson in the court.

This contest was decided in Little's favor in straight sets, 6-3, 6-4, 8-4. Neither of the opponents of Larned and Behr appeared, and these two will meet tomorrow in the second round of the national championship.

The match between the two Longwood players—D. C. Wright, brother of the champion, and N. W. Niles, attracted considerable attention. Wright winning, 7-5, 6-1, 6-2.

Clothier won his way into the second round in his match with H. A. Macmillan, of Providence, and Hackett of New York was also successful in his contest with G. T. Eames.

The features tomorrow will be the challenge match in doubles, Hackett and Alexander playing the present title holders, Ward and Wright.

## BED OF ROSES FOR NEW PUGS.

OLD ONES HAD HARD PICKING  
AHEAD.

Small Purses and Many Fights to Make the Game a Strenuous One. No Riding in Pullmans and Long Waits Between—How Billy Manning Beat Railroad.

The latter day pugilist has a bed of roses compared with what the old roused were compelled to put up with. Besides being short of his hardships the business nowadays is far more remunerative.

In this improved age of palace cars, fast railway transportation, thousands of cheap theaters, the padded-mitt entry's life is almost one continuous round of pleasure.

In the old days it was fight or not fight. Nowadays almost any pugilist laying claims to ability with his fists not only can live without fighting for years at a time, but can gather in quite a sum of money appearing in vaudeville, stunts or giving three-round exhibitions with the gloves.

Twenty-five years ago, who would have thought of a pugilist making a jump from San Francisco to New York and riding in a Pullman all the way? Then a wait of six months or a year before getting into the ring? There were a few who boasted this luxury, but the struggling aspirant found different work cut out for him. If he traveled 500 miles without a fight he was doing well. And in those days it was not big arenas, \$30,000 purses, big advances or giving three-round exhibitions with the gloves.

It was then his hardships began. If it was cold, the shelter of a barn, unheated, was the best that awaited him, and to outwit the authorities often meant outwitting private boxers to some secluded spot. As often the purse amounted to a few hundred dollars and the attendance was confined to a handful of spectators, who paid fancy prices to see the fun.

Billy Manning is a fair type of the old pugilist. He is as hard as a heart as half the lightweight in the ring. Billy was reminiscent yesterday.

"I will never forget the time I fought in every town between Denver and Salt Lake," said Manning, when the subject of latter-day boxing was broached.

"I started out in Denver and won a fight with a dub. There was not much money in the house, and with a penchant for being a good fellow, I soon got rid of the purse. My manager and myself set up almost all night, and then decided to look for a scrap in another small town. We started out and booted it. This walking served to sweat out the suds we had sapped up that night, and a happy idea occurred to me. I was to fight a big railroader, and when I got into the ring he looked bad. I started in and smashed him one in the stomach, when my manager, who was in the crowd, pronounced me a winner. Here, hold on, Billy, don't do that. It isn't right; this is a good fellow and came on to help out the show; treat him right. I provided, but every now and then I'd slip over a hard one, and my manager would make the same stall. This was to keep the fellow from getting angry, and he was telling what he might do if he got mad. In this way we generally killed 'em along for the beating."

"I've had other several other small towns to make, so my idea of doing my training at night on the cross-ties was put into practice, and as always happened, I got up a hard one. I was to take the train, but that all he said was to give Morley a little gift about being the great manager. The dispute about Bert's alleged offer is ancient history now, for it can have no effect on the future of the team. For Morley is out of baseball. It is merely a person's question of who is telling the truth, and the fans can believe whichever one they please."

"It was not until I opened my fight shop in Los Angeles on the site now occupied by the Tule-Lyon store, that I made any money. There was an old church there then, and my place was alongside. I got plenty of dubs to lick and took some good ones. I seldom trained for the easy ones, although the sports along Spring street often thought so. I would go for a run, get out into the country, take a handful of dust, and after wetting my face, smeared it on; then I would kick my shoes in the dust to color them and walk back to town. When the fans saw me they would remark: 'Great Scott, look at Billy Manning, how he is doing road work!'"

"No, the latter-day pug has a clench to what we had to go through."

**WAY IN THE GAME.**

Father of Local Lawn Tennis Has Hopes of Making His Presence Felt at Newport.

The eastern trip of Capt. A. C. Way, the veteran tennis enthusiast, gives promise of greatly stimulating the game in Southern California, and may lay the foundation for some great match play in the future.

While in the east the "father of California lawn tennis" is studying the methods and procedure of eastern clubs, with a view to injecting even more enthusiasm and life into the game when he returns to his southern home. # THE PUBLIC SERVICE.

## SUMMARY OF THE DAY.

Members of the Board of Public Works yesterday inspected the work done upon the outfall sewer by Stansbury & Powell and found that what had been accomplished was well done, but at the least difficult points. As a result of this investigation it is probable that the contract will not again be let and that the work will be done by the city direct.

## AT THE CITY HALL.

### CITY TO FINISH OUTFALL SEWER.

### INSPECTION YESTERDAY SHOWS DIFFICULTIES AHEAD.

Board of Public Works and Many Engineers on the Ground—Woman Says Big Money Was Allowed for Sand Lots—Bids for Sewer and Street Improvements.

There may or may not be something mysterious in the excursion of the Board of Public Works to the outfall sewer yesterday, which included a walk through the completed portion of the tunnel in section 2. Be that as it may, the recommendation of the board as the City Council can be safely shadowed as a result of yesterday's visit and inspection, and that is, that the contract will not be re-let but the work finished by the city.

Accompanying the members of the board were City Engineer William Mulholland, superintendent of the city waterworks, J. B. Lippincott, Owens River consulting engineer, Charles Altop of the Altop Engineering Company, and Engineer Nelson, connected with the city department.

The supposition of persons on the outside, who have watched the trend of sewer investigation, is that the report of the engineers who made the measurements for the Board of Public Works to determine the need of the sewer completed by the re-letting of the contract, disturbs the equilibrium of the officials.

It is certain that the visit of this bunch of engineering talent has determined in the most definite way that Stansbury & Powell, with the most serious inspection of the sewer, as if having determined in advance that they would throw up the contract when the difficult work was to be done.

Another point determined by the visit of yesterday is that whatever report or recommendation goes to the City Council, it will set forth that the portion of the sewer completed is done in the best possible manner. Bored and with the tunnel well exposed, six of the party went down the shaft in section 2 and waded through the mile and a quarter of water running in the sewer, toward Inglewood. The six were Messrs. Anderson and Edwards, of the Board of Public Works, and Messrs. Hamilton, Kingsbury, Lippincott and Nelson.

They also made an inspection of the portion of the old outfall sewer, still in use at the ocean end of the line, to satisfy themselves as to its condition and its ability to stand wear and tear of the new portion. That it will fill the requirements until renewal is demanded by growth of the city is the opinion of those who made the inspection.

As indicating the step about to be taken by the city, upon advice of the City Attorney, the question of applications now in possession of the city was discussed with the view of turning the city's ability to tackle the work under the direct superintendence of City Engineer Hamilton.

Further indicating that this will be the recommendation made to the City Council is the fact that Mr. Lippincott, close friend and former superior of Mr. Hamilton in the government service, seems to have been taken on the expedition as a special desire of the new City Engineer, in order to secure his valued opinion of the work as far as it has gone, and of the difficulties confronting the engineer who now falls heir to the work.

It is apparent from all that can be learned that the report of Mr. Kingsbury as to the portion of the sewer yet to be completed is approximately correct; but that the report of the engineers who made the measurements raised some question to be determined by a further investigation, also seems probable.

## GENERAL REFERREES.

**ALLOWANCE FOR SAND LOTS.** Mrs. Isabelle A. Hayes objects to the improvement of Darwin avenue if she has to help pay for the work and the objects good and hard she put her reasons on paper and filed them with the City Clerk yesterday.

Among other things she says: "The amount of damages to be paid by the city to persons owning land to be taken for this problematic improvement is very large in excess of the market value of the land. The improvement consists of a few sand lots near the river-bed, and some miserable shacks thereon, mislabeled 'improvements.' The actual cash value of the land and improvements does not exceed \$5000, whereas the amount generously awarded to the owners is \$25,000 to \$30,000."

Mrs. Hayes gives many more reasons and takes a slap at the "autocrat" of the Street Superintendent's office who, she says, arbitrarily makes the assessments in an unlawful manner.

## IF YOU WOULD "KICK,"

DO IT WITHOUT DELAY. Bids for various street and sewer improvements were opened by the Board of Public Works yesterday and submitted to the City Engineer for inspection. Following were the lowest bids for the several improvements named:

Sewer on Macy street, M. L. Hostetter bid \$2385, but as he has "crawled" several times on bids for public work, the contract may fall to F. W. Whittier, whose bid is for \$2500; sewer on Burlington avenue, M. L. Hostetter, \$1698, and in this instance Whittier again secured with a bid of \$1500; sewer on Edgewood road, C. Ukropino, \$1177; sewer on Olive street from Temple to Court, C. Ukropino, \$1131.

Grading of Hyperion avenue, F. W. Whittier, \$5.60 per lineal foot; curb, 10 cents; gutter, 11 cents; sidewalk, 12 cents.

Grading Fourth street from Lorena to Indiana, George Rheinschild, \$3.38 per lineal foot; curb, 38 cents; gutter, 11 cents; sidewalk, 11 cents; culverts, \$125.

Paving San Pedro street from Fifth

## AT THE COURTHOUSE.

### HUSBANDS SEEK SOLE CONTROL.

### ONE WANTS CHILDREN, OTHER CLAIMS A LOT.

Both Bring Suit Against Their Wives—Scarpa Gave Up His, But Sues to Recover Title in Daughters and Son—Nichols Desires to Own Real Estate All by His Lonely.

Two suits were filed in the Superior Court yesterday by husbands against their wives to quiet title in the case to their three children and in the other to a piece of real estate, which they purchased jointly before their marriage and which the husband now wants all by his lonely.

Frank J. Scarpa is the man with the children—three of them—and he asks the court in six counts to turn them over to him in exclusive control, proprietorship, custody, care and direction of their education and for their support.

Scarpa and his wife, Mrs. Katherine E. Scarpa, were married in Pueblo, Colo., in February, 1926, and the three children are Ellen C. J., 11 years old; Elizabeth, 8, and Frank, 4 years of age.

In his petition filed yesterday Scarpa states that for some months Mrs. Scarpa has been neglecting her household duties and her children in order to seek the company of Samuel E. Belcher, whom she makes a party defendant in his complaint.

On July 6 last Mr. Scarpa agreed to give up his wife and they separated. Scarpa went to Long Beach and, according to the complaint of his husband, is living there with Belcher, who is also known as "Philips" "Roberts."

Mrs. Scarpa is going under the name of "Belson."

Scarpa makes no complaint against his wife, but asserts that under the circumstances she does not take proper care of the children, whom he has agreed at first should remain in her custody. It is for this reason that he seeks title in his children again through his attorneys, Seph & Blair.

Monday, he says, he went to Long Beach where his wife and children are living with Belcher, for the purpose of calling on them, but he says his wife closed the door to his face and would not let him see them. Then he hiked for the Courthouse.

The other husband to sue is A. E. Nichols, and the defendant is Mrs. Jennie Nichols. He wants to make sure that 18 block "O" Elia Hills tract, is all his and his alone.

Through his attorney, Carlisle Wynn, Nichols states that back in 1923, when Mrs. Nichols was Mrs. Jennie Stephens, they jointly purchased a piece of real estate in a building an undivided half interest, as at present they do in each other.

On September 18, 1924, Mrs. Stephens died her half of the lot to Mr. Nichols for a valuable consideration. Later they were married.

Now Nichols claims that his wife asserts an interest in this lot. He won't stand for that and asks the court to quiet title in it for him so that it can be his own only.

**LEFT NO WILL.** A petition for letters of administration in the estate of the late Henry Hall of the Hall Construction Company was filed in the Superior Court yesterday by the widow, Mrs. Annie L. Hall, through her attorneys, Wellborn & Williams.

The petition recites that when Henry Hall died recently at his home, No. 1036 Beacon street, no will could be found. The total value of the estate is said to be \$45,000, but as a great part of this is real estate in this city, it is believed to be considerably more. The personal estate approximates \$32,000.

The heirs to the estate are the widow and two daughters, Miss Bertha V. Hall, 22 years old, and Miss Kathryn M. Hall, 20 years old. A large part of the personal property consists of stock in the Hall Construction Company.

At the same time that the petition for letters of administration was filed, Charles Berry for \$10,300 damages and expenses, and \$5000 as exemplary damages, Berry claims that while working in the excavation for the big East Los Angeles sewer on March 23 last, for which the company has a contract, there was a cave-in and both his legs were broken and he was otherwise injured.

**KETTLE HER WEAPON.** ETHEL MAY WAS STRENUOUS. "I've been very unhappy for two years," remarked John H. Callis to Judge Conroy yesterday during the hearing in his suit for divorce against Ethel May Callis on the charge of cruelty.

Judge Conroy evidently sympathized with the young man for the story he told and what the witnesses said indicated that Mrs. Callis considered a husband a mighty good excuse for doing as she pleased.

Within two weeks of her marriage her husband claims she knocked him down and choked him. They were married in San Jose in February, 1922, and a short time afterward, when Mr. Callis wanted to attend lodge meetings, his wife put him to bed and took away his clothes to keep him at home.

Witnesses told of how she often kicked her husband and that Mrs. Callis had thrown a kettle at him and struck him with it. Also there were letters from Mr. Callis to his mother and other men. More witnesses were going on the stand when Judge Conroy stopped further testimony saying he had heard enough. An interlocutory decree of divorce was granted.

**SUE FOR A NOTE.** MINING COMPANY WANTS MONEY. Of course L. A. Newby expected to be a millionaire. Gold and copper mines are sometimes surprising things. However that may be, he gave the Interstate Mining and Reduction Company on Jan. 15 last a note for

## THE INFERIOR COURTS.

### CASE DEPENDS ON CAR'S SPEED.

### FIREMEN MUST SWEAR ELECTRIC VIOLATED LAW.

Restaurant-Saloon Waiter Convicted of Selling Boose on Sunday. Man Fined for Beating Woman. Coward Strikes Aged Man in Fit of Rage—Drunk's Heavy Sentence.

Having inquired into the cause of the collision at Twenty-fourth street and Maple avenue, Saturday morning, between Car No. 281, and a hose wagon from Engine House No. 7, in which Lieut. R. W. Trowbridge, Driver E. R. Ricks and Hoseman C. H. Gridley were severely injured, Prosecuting Attorney George Beebe stated yesterday that there is but one phase of the law covering the case—the eight-mile-an-hour speed ordinance.

Should the firemen on the hose wagon, which was crashed into, not prove to be human speedometers, and swear that the car was running more than eight miles an hour over the crossing, there will be no prosecution by the city, according to Attorney Beebe.

The city attorneys rummaged through law books in a vain attempt to find another ordinance to cover the case, but none applied.

Section 286, relating to the right of ways and the speed of street cars, when the crew is aware that a car is in the way of the regular street car, does not apply to cases like that now presented. The only ordinance relating to speed on crossings, is No. 12,769, recently passed. It has some bearing on this case.

Assistant Chief O'Donnell was closeted with the City Prosecutor for over an hour late yesterday afternoon. As a result of this consultation the assistant chief will interview his men, who were in the accident, and find out what they can swear to relative to the car's speed.

As the accident occurred five feet within the crossing limit, Attorney Beebe said that he would issue a complaint if the firemen were certain that the car was running faster than eight miles an hour at the time of the collision. Otherwise, he said, the city prosecutor said, there is no law covering the case.

**BOOZE SELLER FINED.** Tony Skarich, a waiter in a South Los Angeles street "Sunday saloon," was fined \$50 for serving liquor to officers without the regular meal. He was fined by the city ordinance. The officers showed conclusively that the lunch served was identical with a regular "street" lunch.

One of the features of the case was the exposing of limburger cheese sandwiches, which had been stored in the property room of the jail. The odor caused the Chief to have several trustees looking all day for dead rats, and when the cheese was sent into the courtroom it was discovered that the odor was from the sandwiches.

**Hits a Woman.** Justice Downey, sitting in the place of Police Judge Rose yesterday, sentenced R. E. Roberts, a notorious character, to 100 days in the City Jail, for beating Nellie Lawrence in a rooming-house at No. 317 South Main street. According to the testimony in the case Roberts demanded a certain amount of cash from the woman, and when she failed to deliver it he beat her brutally.

**Fined for Battery.** A. C. Cornelius was given a suspended sentence in the Police Court yesterday for attacking an old man in an intoxicated condition on the night grounds of the city.

Through his attorney, Carlisle Wynn, Cornelius walked up to the drunken man and struck him several times. So far as the court could learn, there was no provocation for the assault. Cornelius would have fared worse had it not been for the plea of his mother.

**Drunk's Heavy Sentence.** "Thirty dollars or thirty days," was the gruff words from the police judge yesterday when he heard the testimony against Pat Burk, arrested at the Arcade Depot Monday, charged with drunkenness. From the officer's testimony, Burk created considerable disturbance at the depot, during the rush at train-time. When approached, and asked to keep quiet, he only cursed the louder. Burk has been in Police Court before.

**Longs and Shorts.** Thackeray was 6 feet 4 inches. So was Fielding. Scott, Walt Whitman and Tension were six-footers. Goethe, the elder Dumas, Robert Burns and Longfellow were 5 feet 10 inches. J. M. Barrie is only 5 feet 5 inches, and King only 5 feet 4 inches. Edwin Abbey has the same height as Barrie, so has Alma-Tadema. Lord Curzon is 6 feet 1 inch. George Westinghouse is 6 feet 2 inches. Andrew Carnegie is 5 feet 4 1/2 inches. President Roosevelt is 5 feet 9 inches. Mr. Gladstone was 5 feet 9 inches. Sir Henry Irving was an inch taller. Edmund Burke and Oliver Cromwell were 5 feet 10 1/2 inches, which, by the way, is the height of the present Prime Minister of England, Sir Henry Campbell-Bannerman. Wellington was half an inch taller than Napoleon. That trio of great admirals, Nelson, Blake and Sydney Smith, were a little under 5 feet 6 inches. Bismarck was a tall man, but not so tall as George Washington, who was 6 feet 5 inches. Carnegie, the great painter, is 6 feet. Carlyle, Darwin, Huxley and Ruskin were six-footers.—(Hallfax News.)

**If You Want to Go East C. Haydock.** Agent Illinois Central R.R., 118 W. Sixth.

**WATER COMPANY HERE.** Papers were filed yesterday incorporating the Center Land and Water Company, with a capital stock of \$24,000, of which \$1300 is subscribed. Charles Anderson, George R. M. Carlin, H. Metzger, Gordon and V. W. Guerrero of Los Angeles, are the directors.

**FOR REAL ESTATE.** The J. E. Klippert Company incorporated yesterday with \$25,000 capital, of which \$3 is subscribed. The directors are J. E. Klippert, Mrs. L. Klippert and Walter L. Bowers.

**STRENUOUS AMUSEMENT.** For the purpose of "entertaining the public by giving an exhibition of a railroad collision," etc., articles of incorporation of the Collision Amusement Company were filed yesterday, with a capital of \$10,000, of which \$5000 is subscribed. This collision enterprise is to be directed by Phil S. O'Mara, Walter Himpel, James P. Morley and J. Myrick, Jr.

**GENERAL STORE.** L. Sage Bros. Company was incorporated yesterday with \$200,000 capital, of which \$250 is subscribed. The new company will take possession of the present store at No. 418 South Broadway, and will install a big department store. The directors are Louis G. Le Sage, J. Henry Le Sage, H. E. Roberts, Robert A. Read, H. W. O'Melveny, O. M. Souden, H. J. Woolcott.

**BUES FOR HIS CAR.** R. W. W. Grigsby, an employee of the Pacific Light and Power Company, has begun suit against the Phillips Motor Car Company to recover a Buick automobile, which it says the company refuses to deliver to him. He asks for the car or \$150, and demands a day for every day that the machine is withheld. The car is of some what ancient vintage, and some time ago needed curing for its in-laws. The garage did the work, and when the time was figured up, the job cost much more than Grigsby had anticipated. The franchise says that Grigsby has tried to avoid paying the bill, and consequently they kept his car.

**AT THE SUPERIOR COURT.** CASE DEPENDS ON CAR'S SPEED.

FIREMEN MUST SWEAR ELECTRIC VIOLATED LAW.

Restaurant-Saloon Waiter Convicted of Selling Boose on Sunday. Man Fined for Beating Woman. Coward Strikes Aged Man in Fit of Rage—Drunk's Heavy Sentence.

Having inquired into the cause of the collision at Twenty-fourth street and Maple avenue, Saturday morning, between Car No. 281, and a hose wagon from Engine House No. 7, in which Lieut. R. W. **WATER COMPANY HERE.** Papers were filed yesterday incorporating the Center Land and Water Company, with a capital stock of \$24,000, of which \$1300 is subscribed. Charles Anderson, George R. M. Carlin, H. Metzger, Gordon and V. W. Guerrero of Los Angeles, are the directors.

**FOR REAL ESTATE.** The J. E. Klippert Company incorporated yesterday with \$25,000 capital, of which \$3 is subscribed. The directors are J. E. Klippert, Mrs. L. Klippert and Walter L. Bowers.

**STRENUOUS AMUSEMENT.** For the purpose of "entertaining the public by giving an exhibition of a railroad collision," etc., articles of incorporation of the Collision Amusement Company were filed yesterday, with a capital of \$10,000, of which \$5000 is subscribed. This collision enterprise is to be directed by Phil S. O'Mara, Walter Himpel, James P. Morley and J. Myrick, Jr.

**GENERAL STORE.** L. Sage Bros. Company was incorporated yesterday with \$200,000 capital, of which \$250 is subscribed. The new company will take possession of the present store at No. 418 South Broadway, and will install a big department store. The directors are Louis G. Le Sage, J. Henry Le Sage, H. E. Roberts, Robert A. Read, H. W. O'Melveny, O. M. Souden, H. J. Woolcott.

**BUES FOR HIS CAR.** R. W. W. Grigsby, an employee of the Pacific Light and Power Company, has begun suit against the

**PROMISSION TICKET.**  
Los Angeles County Convention Nominates and Makes Slight Change in its Platform.  
The Los Angeles County Convention of the Prohibition party met in all-day session yesterday at the Temperance Temple, Temple and Broadway. About 200 delegates and visitors were present.  
In the morning the Assembly District caucuses met and elected delegates to the State convention, nominated candidates for Assemblymen, and selected members for the County Central Committee.  
Assemblymen were nominated as follows: Sixty-seventh District, W. J. Davis of Hermosa; Sixty-eighth District, S. S. Todd of Los Angeles; Sixty-ninth District, A. R. Graham of South Pasadena; Seventieth District, William R. Gallagher of Los Angeles; Seventy-first District, A. F. Carter of Los Angeles; Seventy-second District, C. E. Yerge of Pico Heights; Seventy-third District, left to the Central Committee.  
Candidates for State Senator were nominated from the three Senatorial districts electing this year, as follows: Thirty-fourth District, L. V. Glascock of Chatsworth Park; Thirty-fifth District, George L. Thompson of Pasadena; Thirty-sixth District, David B. Lauffer of Los Angeles.  
In the afternoon the nomination of the county ticket took place. There was little opposition to the names selected. The ticket resulted as follows: Sheriff, George W. Ogilvie of Pomona; Clerk, Harmon Cook of Pasadena; Auditor, T. W. Troy of Los Angeles; Treasurer, E. C. Shipley of Los Angeles; Recorder, S. M. Ramsey of Los Angeles; Tax Collector, William Cammach of Whittier; Administrator, J. A. Knight of Downey; Coroner, Dr. E. W. Clark of Los Angeles; Surveyor, Harry V. Wheeler of Los Angeles; Superintendent of Schools, J. S. Baird of Los Angeles.  
Candidate for Assessor, District Attorney and Superior Court Judges were not nominated, nor were any other candidates endorsed.  
Dr. L. D. Johnson of Los Angeles was nominated for Representative in Congress.  
D. C. Andrews was nominated as candidate for Supervisor from the First District, and Ulrich Knoch from the Third District.  
The platform differs little from that of former years, mainly in the addition of a demand that Ansett Park be abolished. In committee planks were discussed favoring the consolidation of city and county government, and speedy action on the Owens River project, but they were not incorporated.  
Among the delegates the nomination of James H. Blanchard for Governor was favorably discussed. At the State convention the Southern California delegation will be solid for him, and as the northern delegates have not united on any man, his nomination seems assured.  
After his nomination for Sheriff, Mr. Ogilvie announced with regret that he could not accept the favor, as he had determined to run only upon an independent ticket.  
**PUBLIC LIBRARY.**  
Librarian Lummis Suggests the Formation of an Annuity Association Among the Staff.  
The meeting of the board of library trustees last night was consumed entirely by an exhaustive report from Librarian Lummis, in which he made many suggestions for the improvement of the library, all of which were endorsed by the trustees.  
Among other things, the librarian suggested a fortnightly joint meeting of the trustees, the librarian, and all the members of the staff, which was taken under advisement. He also suggested the formation of an annuity association among the employees, and asked the appointment of a special committee to formulate a plan, but membership in the proposed association is to be entirely voluntary, and only to be adopted by a vote of the staff after they have fully heard the plan discussed. It was referred to Messrs. Giffen, Rodman and Lummis.

**WIFE SEEKING RUNAWAY.**  
MRS. WATERS WOULD LIKE TO SEE HER HUSBAND AGAIN.  
Particularly Anxious About the Money That He Took from Her to "Invest"—The Hard Luck of a Confiding Pasadena House Maid Told to Police.  
Claiming that Otto Waters, her husband, has taken \$238 and disappeared, Mrs. Waters called at Central Police Station yesterday afternoon and asked the authorities to assist in locating the runaway and recovering her money. So far the police have been unable to gain any trace of Waters. Some weeks ago Waters came to Los Angeles from Oak Park, Ill., and later went to Pasadena. He entered...

**FATAL CAR ACCIDENT.**  
Teamster Misjudges Speed of South Main Street Car and is Thrown Distance of Thirty Feet.  
The careless attempt of Phillip Lentz to cross Main street in front of a rapidly moving car last night, resulted in injuries that later caused his death in the Receiving Hospital, where he was taken to have his wounds dressed. He was a teamster who lived with his wife and family at No. 523 Santa Fe avenue. Last night he went to the southern part of the city on business and tried to cross Main street at Thirtieth street in front of a rapidly-moving north-bound car, but misjudged the distance it was from him.  
He was struck and knocked for a distance of about thirty feet along the street and was picked up unconscious. He was hurried to the Receiving Hospital and an examination showed that he had numerous cuts and bruises in different parts of his body and had received a concussion of the brain. He was in such a serious condition that his family was sent for and at 9:30 o'clock, without having regained consciousness, he was pronounced dead.  
**NEGOTIATE FOR NOTED MINES.**  
Americans May Purchase Russian Properties Which Once Caused Big Scandal.  
[BY THE ASSOCIATED PRESS.—A.M.] ST. PETERSBURG, Aug. 21.—The newspapers here report that Americans are negotiating for the purchase of the Nerchinsk gold mines, which have been the cause of a great scandal in which several grand dukes were involved. The mines are supposed to contain quartz worth \$2,000,000,000, and the court-camarilla of the czar is anxious to dispose of them, but the Americans are chary of purchasing a concession which might be repudiated by Parliament.  
Two more members of the outlawed Parliament have been arrested—Frenkel at Ymami and Pritul at Yemlofka. The other arrests of members of Parliament have been reported, one of them in the province of Kiev and the other in the province of Taurida. Thirty-seven naval officers at Kronstadt have resigned owing to their indignation at what they characterize as the lenient sentences imposed on mutineers by the court-martial in session there.  
Gen. Sarabulev, aide de camp general to Emperor Nicholas, has been appointed inspector-general of infantry, while retaining the position of adjutant-general and his membership in the Council of the Empire. Gen. Sarabulev commanded one army corps in the Russo-Japanese War.

**INDICTMENTS TO BE PERFECT.**  
Government Making Special Effort to Prevent Standard Oil Escaping on Technicality.  
[BY THE ASSOCIATED PRESS.—A.M.] CHICAGO, Aug. 21.—In preparing the indictments upon which the Standard Oil Company is to be tried for accepting rebates, the government attorneys are making an especial effort to have the issue clear-cut and to this end a conference has been called for Wednesday.  
Dist. Atty. J. J. Sullivan of Cleveland has been summoned and in company with Assistant Atty.-Gen. Pagn, Special Prosecutor Morrison and his assistants, will examine each indictment carefully and endeavor to so draw it as to prevent it being quashed on a technicality.  
In order to give the attorneys all the time needed both juries adjourned yesterday until Thursday morning, when it is believed they will make their reports to Judge Beetha of the United States District Court.

**OTTO WATERS.**  
Mrs. Waters came to this city. She searched in vain and at last called the police to her aid.  
"I want my money back," said Mrs. Waters, with determination. "Of course I liked him and we were quite happy together, but he had no right to take my money. Just think of it, \$238, and it was all I had. To think that any one should have misled me in this manner!"  
The police will send descriptions of Waters throughout the vicinity. They will also communicate with the Chicago police. From the description of the man furnished by the woman, the officers are inclined to believe that he has a record which will bear investigation. They say if Waters is not wanted in other places and he returns here, they do not think Mrs. Waters will prosecute him.

**PROMISSION BANQUET.**  
Following the Los Angeles County Prohibition Convention, the State Prohibition banquet was held last night in the hall of the Federation Club, in the basement of the Citizens' Bank Building. Nearly four hundred men and women gathered at the tables, and...

## Clean-up Sale of Dressing Tables

We find that we have one only of about 25 styles of Dressing Tables. The new stock will soon be coming in and samples from that will be demanding room, so this is a case of cutting prices to gain the necessary space.

We offer you a good assortment of woods and designs and at prices worth considering.

\$8.50 DRESSING TABLE \$6.35	\$14.00 DRESSING TABLE \$9.75
\$9.50 DRESSING TABLE \$7.75	\$16.00 DRESSING TABLE \$11.75
\$24.00 DRESSING TABLE \$18.50	\$26.00 DRESSING TABLE \$19.75
\$30.00 DRESSING TABLE \$21.50

**RAILROAD RECORD.**  
**NEW RATE LAW TAKES CROWN.**  
The new rate law, which will take effect on September 1st, is the result of a long and arduous struggle. It is a landmark in the history of the railroad industry, and it is a victory for the public. The new law will give the public a fair and reasonable rate for the transportation of goods and passengers. It will also give the railroad companies a fair and reasonable return on their investment. The new law is a triumph for the public, and it is a triumph for the railroad industry.

**FOR WILLIE.**

**Art China and Glass**  
Dollar-fifty, today, for real Teplitz vases, opales-  
cent glass vases and bowls and hand-painted  
china plaques that are worth double and more.  
Genuine Italian Teplitz vases in many quaint shapes,  
edged with gold leaf, and hand painted by talented artists  
—the coloring, arrangement and general designing show-  
ing rare skill. Dollar-fifty for vases worth two to three  
times as much.  
Bowls and vases of rich opalescent glass in the low,  
squat shapes so desirable for table decorations as well  
as the tall ones for long-stemmed flowers; their bronze  
leaf trimming gives them a richness of appearance which  
you'd never expect at twice the cost—\$1.50.  
12-inch plaques of high grade China in dainty hand-  
painted medallion designs bordered with dull brown and  
gold—exceptionally beautiful pieces for \$1.50.  
The free embroidery lessons will be discontinued until  
the first Friday in September. (Third Floor)

**Picture Clean-up**  
Incoming stocks demanding display space.  
So, pictures that have been here over a  
month—even though just as attractive as  
the ones coming to take their places—are  
to be forced out at reductions of a third  
or more. Most of them in fact at less  
than the value of the frame and glass.  
(Third Floor.)

**Linens: Lowered Prices**

It wouldn't do for THIS store to sell other than  
thoroughly trustworthy linens, would it?  
And we are too jealous of that reputation  
to jeopardize it by stretching valuations.  
These savings are REAL:  
72-inch full bleached satin  
damask in several handsome  
floral designs, \$1 a yard;  
regularly \$1.25.  
72-inch satin damask of  
extra fine quality, in beau-  
tiful patterns, \$1.25; regularly  
\$1.50.  
24-inch dinner napkins of  
fine quality satin damask, \$3  
a doz.; regularly \$4.  
18x18-inch hemstitched and  
open napkins or center  
pieces of high-grade satin  
damask, 35c each; regularly  
50 cents.  
72x9-inch fringed damask  
doilies, oval shape, 50c a  
doz.; regularly 75c.  
19x39-inch hemstitched  
huck towels with damask  
borders, 25c each; regu-  
larly 35c.  
22x46-inch damask towels  
with fringed ends and col-  
ored or white borders,  
specially priced at 25c  
each.  
20x44-inch towels of full  
bleached damask with  
knotted fringe ends, spe-  
cially priced at 25c.

Genuine Glasgow Linen

**Among the Silks**  
225-7-9 South Broadway 224-6-8 South Hill Street

Let's start out today with black silks—for now and later wear.  
**75c for \$1 taffeta; 26-inch.**  
**95c for \$1.25 Swiss messaline; 26-inch.**  
**\$1.10 for \$1.50 Peau de soie; 26-inch.**  
**85c for \$1.25 oil boiled taffeta; 26-inch.**  
**\$1.22 1-2 for \$1.50 paillette de soie; 26-inch**  
**"Faultless" Lining satins, 36 inches wide; \$1 a yard.**  
**The famous Moneybak taffetas are sold here only in Los Angeles.**  
**A lot of 19-inch colored taffetas, both plain and fancy, on**  
**special sale at 50c instead of 75c—their usual price. Good**  
**enough for gowns or separate drop skirts.**

**\$2.50 Couch Covers, \$1.95**  
No "seconds," no shopworn ones. First  
class in every respect—except the question  
of price, which is much lower than for usual  
first-class goods.  
Heavy Oriental figured couch covers,  
fringed all around, full 60 inches wide and  
three yards long, at \$1.95. We usually sell  
them at \$2.50.  
**Children's Underwear**  
We've always complete lines of under-  
wear for children of all ages up to 15  
years, even to tiny babies.  
We want you to know the resources of  
this completely equipped children's store,  
to know the reasonable prices, and the  
variety of styles carried. It's a genuine  
pleasure to show them.

**Back Combs. 1-3 Less.**  
Here are two sales rich in sure-to-be-appreciated Christmas-gift possibilities. Buy  
to put by, if not to use at once.  
Our clearance of mounted-back and side combs—shells, gray, amber and jet—every  
comb in stock, at a third under regular value. Do you wish to share?  
**Fancy fans, \$4.50. Not \$4.50 fans, but those that we've held up to now, for \$6 and**  
**\$7.50. Sandalwood and ivory sticks, plain and carved, spangled, painted and other-  
wise decorated, some colors and black.**

**Worthy Handkerchiefs**  
Every other day in the year these hand-  
kerchiefs sell at twenty-five cents apiece,  
and are exceptionally good value at that,  
too. Today you may buy six for \$1.35,  
because the line of initials isn't quite com-  
plete. Made of pure linen, initial hand  
embroidered within forget-me-not wreath in  
corner.  
Taped handkerchiefs, barred in squares,  
of sheer quality, regularly 10c, now 8c each.

**Embroidered Robes, \$23.50**  
Robes of white and colored linen or batiste, some of which bore price tags of \$75—  
whose average selling price is \$51—are marked now at \$23.50. The variety of em-  
broidery designs offers a style to please any taste.  
Remnants of Wash Goods—2 to 8 yards—half price.  
25c figured Batistes and Percales, ten cents a yard.

**Haviland China**  
**Dinner Set**  
Extra good values this week in  
fine Haviland China Dinner sets  
—for instance.  
For 6  
People . . . **\$17.50**  
Regularly \$25.00  
For 12  
People . . . **\$27.50**  
Regularly \$35.00  
The decorations of this set is  
especially effective—makes a  
very rich table setting. Come  
in and see for yourself.

**H. JEVNE CO.**  
**JEVNE'S DELICIOUS BREAD**  
People who are in the habit of  
eating Jevne's BREAD know  
that it is the finest bread pos-  
sible to buy, or bake either, for  
that matter. The high class of  
materials used, the thorough  
kneading, the scientific bak-  
ing—all combine to produce a de-  
liciously light, white, wholesome  
loaf outliving the best home-  
baked product. A great many  
people have discovered this fact  
and thousands of particular  
people never think of home bak-  
ing, but rely on Jevne to supply  
their bread needs. Suppose YOU  
try Jevne's famous bread today.  
We are sure it will please you.  
Ask for our free new catalogue.

## SAYS MEXICO IS FRIENDLY.

MEXICAN BANKER EXPLODES SENSATIONAL TALES.

Declares That No Other Country in the World, Both in Its People and Its Government, Is More Friendly to Americans—One Case of Rapid Rise in Financial Life.

George I. Ham, one of the ablest and foremost financiers in the republic of Mexico, has just arrived in Los Angeles with his family to spend the rest of the summer in Southern California.

As the president and organizer of the United States Banking Company of Mexico City, the largest and strongest American banking institution in the republic, Mr. Ham is a man who occupies a seat high in financial circles of Mexico.

It is the more creditable to the president and to the institution that Mr. Ham built the present mammoth institution up personally and at first almost alone, from the humble proportions of an average cross-roads country bank, and all within the past few years.

The county records show that on March 18, 1893, lot 32 of block 2, of the Highland tract, and lot 4 of block 1, of the Highland tract, were transferred by James Wallace, owner, No. 1488 East Fourth street, to Andy C. Zenger, according to the police, the records show, however, according to the police, that Oliver, who formerly had an office on South Broadway, was not appointed a notary until April 26, 1893, a month after the date of the transfer and acknowledgment.

The police label the entire transaction as fraudulent. They say McPherson deliberately selected Wallace as his victim, upstaged himself off as Wallace, the owner of the land, carefully forged the deeds and the notary's acknowledgment, and later, a power of attorney, and transferred the property to Andy C. Zenger, a mythical person. Later McPherson went under the alias of Fred C. McPherson and also represented himself to be Zenger, according to the police detectives.

When McPherson believed that he was safe and that the alleged forgeries never would be discovered, he again transferred the property from Andy C. Zenger to Ben M. Bell, both mythical persons, and represented himself as one or the other, as best suited his convenience, it is claimed.

Finding that it would be necessary for him to have a power of attorney in the case, he managed to secure one by making fraudulent statements to F. M. Green, a notary of San Diego. He managed to secure a power of attorney running from Ben M. Bell to George O'Day, and later changed the name to read C. F. and F. C. McPherson, according to the police, C. F. and F. C. McPherson, Andy C. Zenger, Ben M. Bell and George O'Day are the same person.

A short time ago McPherson attempted to sell lot 32 of block 2 of the Highland tract to Assistant City Auditor Boatwrick for \$400. As the lot is easily worth \$1200, Mr. Boatwrick thought there was something queer about the deal, but was more than willing to make the bargain.

Accordingly the two men went to the office of the Title Abstract and Trust Company, and McPherson signed an agreement to transfer the property, signing for Ben M. Bell as his attorney. The title company began a search of the records to clear up the title, and the alleged forgeries were discovered, and the transaction followed.

He will be arraigned in the City Justice court.

He will be arraigned in the City Justice court.

He will be arraigned in the City Justice court.

He will be arraigned in the City Justice court.

and tellers, and does a business which runs dizzily into the hundreds of millions annually.

**TRAINS DUE TODAY.**  
Blockade Due to Washouts on Transcontinental Railroads Raised and Mails Coming.

At a late hour last night the operating departments of the Santa Fe and Southern Pacific reported that the first through trains from the East since Saturday would come in at an early hour this morning.

It was expected yesterday morning that the movement of the delayed west-bound trains, lying at Yuma on the Elgin and at Needles on the Santa Fe would begin early enough to allow them to reach the city last night. The construction work was delayed considerably, however, and the movement of the trains did not begin until last night.

Yesterday the Salt Lake, also, was out of commission, the west-bound train which should have arrived early in the day, being marked up for a late hour last night.

The cutting off of practically all travel from the East for three days resulted yesterday in a rather funeral appearance about the hotel lobbies and in offices having chiefly to do with eastern business.

The mails from the East, and especially from the Southeast, have been so materially delayed in consequence that many firms were yesterday doing their most urgent correspondence by wire.

**FATAL STORM SWEEPS TUNIS.**  
TUNIS, Aug. 21.—A violent tornado swept over this district today. It was accompanied by a terrific hail-storm and lightning which killed eight farmers and hundreds of head of cattle. Landslides resulting from the storm have virtually destroyed the railroad and have broken down the telegraph lines.

The family has taken a cottage at Catalina, where they will remain for a month.

Mr. Ham brands as the most absurd and idle falsehoods the sensational tales of race feeling in Mexico, and declares that no other country in the world, both in its people and its government, is more friendly to Americans than is Mexico.

The opportunities for investment he considers unparalleled anywhere else in the civilized world. Shrewd means, he says, are showing no hesitation in backing their confidence in the stability of the government, the friendliness of the people and the certain advancement of values along all lines by putting millions into the legitimate development of the natural and acquired resources of the country.

It is through his own confidence in the country, backed by his shrewdness and business ability, which has enabled Mr. Ham to accumulate a fortune of several million dollars, the beginning of which dated from the time of the starting of his bank only a few years ago, so he says with a smile that he is only too glad to practice what he preaches in the way of standing by Mexico.

Mr. Ham is still a young man, and in appearance and demeanor is one of the most democratic and unassuming men to be found in all of Mexico. The greater part of banking hours every day finds him in the lobby of the institution. The selection of the private office is enjoyed by his stenographers and secretaries. For himself Mr. Ham prefers the lobby and the mixing with the throng of all nationalities which pour in and out of the bank during business hours.

Every one knows George I. Ham, and he can call nine-tenths of the 10,000 Americans of Mexico City by name. The poorest patron or the most modest depositor can gain the ear and attention of the president of the institution simply by walking up and speaking to him. In this manner, passing backward and forward through the lobby, Mr. Ham transacts a volume of business personally which would give the average banker a fit of nervous prostration to contemplate.

But the sincerity and approachableness of the man which made him successful when he was doing

## Real Fight

precincts and the convention, and then meet and elect a chairman and a Central Committee to represent its members and to fill out its duties, and to fill out its duties, and to fill out its duties.

**NOMINATIONS**

After the committee adopted, nomination of the candidates for the various offices was made. A speech was made by the speaker and the chairman of the committee, and the candidates for the various offices were named. The candidates for the various offices were named. The candidates for the various offices were named.

The time limit for the nomination of the candidates for the various offices was named. The candidates for the various offices were named. The candidates for the various offices were named.

\_\_\_\_\_

# Actional Fight of Candidates Will Come Today.

...at 4:30 o'clock; but the convention agreed to adjourn until 7:30 o'clock, and to leave the hall open until that time.

**EVERING SESSION.**

...to be held for some time, but they got down to business about 7:30 o'clock. Secretary J. D. Fredrickson read the list of candidates for the various offices, and those against whom there were nominations were nominated by acclamation. They were:

...Judge of the Superior Court, Charles Monroe.

...County Clerk, C. G. Keyes.

**W. E. EASTON MADE A MOVE THAT THE COMMITTEE BE FED.**

but it marred the perfect smoothness of the performance.

Contrast the "colored" brother's case with that of the fat barber who was allowed the proud privilege of "moving" the secretary east the harbor from cigars that must have cost as much as a carload.

They made it all stiff for him and

**CORONER TROUT.**

he arose majestically, glaring around for an impressive space ere his lips moved, and he said: "Mister Chairman, I move the secretary east the harbor from cigars that must have cost as much as a carload."

The barber at also aloof in conscious dignity all the rest of the day. He could hardly get himself unburdened to notice that it was time for food—about noon.

**SOME SLY DOIN'S.**

It cannot be denied that there were other wild alarms behind the scenes. During the morning there was a panic. Walter Parker got lost.

You could see candidates anxiously sneaking around the corridors of St. Mark's Hotel, butting into the rooms of timid lady boarders, withdrawing again in a hurry—and all looking for Walter.

None of them dared come right out and ask if he had "been seen." They would make the tentative observation that many people seemed to have opened headquarters in that hotel. H—m! Had the reporter been ordered to look for "Pete's" name. Then this is—him—

Oh, hang it! He would grab you frantically at last, and hiss into your ear: "Where in hell is Walter?"

Walter made a grand entrance about noon, with his hat cocked over one eye. With every one else on the wharf, he led a stagger with candidates' cigars. Parker was waving the end of a sad-looking cheved-up one.

It made one think of the bigraph picture of Queen Victoria—Walter's triumph! march down the Venice pier to the convention hall. He bowed, with absent-minded benediction, right and left, to the low-towing crowds.

It was delightfully funny to see grouchy old candidate-coggers trying to squeeze out something that would

be mysteriously understood that he was "working" for some one.

Some of those who were "really working" for some various somebodies were an interesting feature. They seemed to eddy into groups.

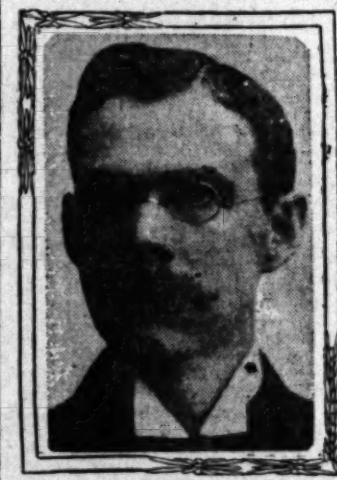

Some of the groups were entirely made up of spectators men whose very appearance shouted "school teacher." They were all hot on the trail of this man, or that, for School Superintendent. For them it meant better school positions, and their ways graced a little slicker and easier.

**QUEER CHARACTERS.**

There were other groups of pretty tough-looking citizens strong for jobs as some possible constables' deputies. There would have been groups of Mexicans, intent on jobs, in case some Mexican had got the nomination.

For some men in that convention this whole hullabaloo of extra cars, delegates, badges, tickets and handshaking means only that he gets, or does not get, the street lamp in front of his house as somebody promised—if elected.

One separate group was made up of adherents of the prize ring—whatever

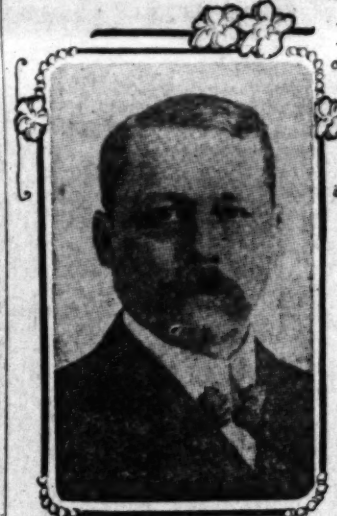

**CHARLES L. LOGAN, nominated for County Recorder.**

can be their interest. Among them was Mauro Herrera, brother of the disgraced Aurelio, who seems to have dumped him along with his waiter manager, Tommy Jacobs. "Fat Al," the timekeeper, and Megaphone Cook, the announcer, and other ring-side "heroes" were hanging hungrily about trying to "put something through."

Some of the delegates waited as grimly as executioners for a chance to vote against some judge who had long ago rebuked them in court. Others were there to punish some candidate for failing to buy tickets for some subscription dinner. Others to "down" a good official because he failed to introduce them to some friend he was talking to four years back; hence was "stuck up."

Good Heavens! Talk about women's church fights being petty and contemptible—what can be said of a convention of "sovereign voters?"

Passed and certain other fumes would change white lead to a blackish color. We have given much space to this subject for two reasons. It would appear that Californians having such barite should make paint, and secondly, you go old Missouri question. "We want to know what it is," should be fully replied to, the end that your visual organs and state of consciousness should be fully shown.

**C. J. KEYES, renominated for County Clerk.**

It was silver. They had a large dark person serving it, and the stuff itself was real red. They smacked their lips with polite unctious over it, but one of the candidates said darkly, as he emerged therefrom, "Gosh, but that punch needs about two quarts of whiskey."

It is only mentioned as a tribute to the virtue and chastity of Pasadena. The people from Pasadena do not know anything about punch, and they are proud of it. If any one of them were asked why they did not put a stick in their punch, they would doubtless make vague answer that it must be because of the lumber tie-up at San Pedro.

**AMONG LARGEST AND BEST.**

This Year's Wheat Crop Reported on by Commercial National Bank of Chicago.

(BY THE ASSOCIATED PRESS.—P.M.)

CHICAGO, Aug. 21.—The annual crop and business report of the Commercial National Bank of this city will be issued tomorrow. The report will cover the Mississippi Valley and a few of the most important States farther West.

"The wheat crop of 1906," the report says, "will be among the largest and best ever produced. In yield not only will it be great, but its weight and quality will be far beyond the ordinary. In this respect, it may be considered nearly perfect. The period of uncertainty is closing rapidly, and the crop may now be called practically out of danger. The yield of soft winter wheat is large, quality the finest, and movement free. Inasmuch as this movement has begun early, and all grains are now nearly or quite on an export basis, with the tendency of prices downward, a large export business may be expected."

**RED Eyes and Eyelids. Weak Eyes and Tired Eyes Need Murine Eye Tonic.**

Get Your Things Together and Go East.

The last opportunity for a cheap excursion to the East this year is fixed for September 1st and 2nd. On these dates the Santa Fe will sell tickets at half rates to Chicago, New York, Boston and many other Eastern cities. The tickets will be good to return up to November 1st and permit stopping at Williams in either direction to see Grand Canyon and spend a few days there at the most delightful season of the year. They will be honored on the California Limited, which is the only exclusively first-class train from Los Angeles to the East. As well as on either of the two other daily Overland Express trains on the Santa Fe.

Better see Mr. McGee at 211 Spring street before the tickets are sold up. On this way you can avoid the crowding of the last few days by calling early.

## IN THE EARTH.

### RARE MINERALS, MINES AND METALLURGY.

#### POPULAR QUERIES AND EX-PERT ANSWERS.

(Answers to legitimate questions in mineralogy, metallurgy, chemistry or mining will be given in the "In the Earth" column of the Los Angeles Daily Times.)

**Uranium Oxide Traces.**

**TOMBSTONE (Ariz.) Aug. 7.**—(To the Editor of The Times.) Will you kindly let me know the composition of the inclosed sample?

**Tours truly,**

**ANSWER:** Two very small pieces of rock neatly wrapped and tagged represents your sample as received by The Times. The percentage composition of the rock will not be given, as it is of diorite formation. One of the specimens shows plumose gypsum in the rock. Qualitative analysis results in traces of copper and autinite (uranium calcium phosphate). Ores of uranium should be found in parts of Southern Arizona. From the "Silver Bell," in your State autinite is obtained carrying a low per cent. of uranium, and resembling, at sight, ordinary ores of copper carrying silica. This Silver Bell autinite was determined by the California State Bureau of Mines, and this department of The Times, and published herein some months ago.

**Barite.**

**CASIMILLA, Aug. 4.**—(To the Editor of The Times.) The attached rock is from cropping of what seems to promise a large ledge. We want to know what it is? Its weight interests us. What is it, and has it any considerable value? Shipping would be expensive because of a long mountain haul.

**Tours truly,**

**ANSWER:** The white sample is a good grade of barite (heavy spar), or native barium sulphate. It possesses a pearly, resinous and shimmering silky luster, and is found in all colors, very often red and yellow. It is brittle, and it is in the scale of hardness, 2 to 3 in the scale of Mohs. Its structure (yours is massive). Orthorhombic in crystallization, and of columnar, pyramidal, tabular or acicular habit. Fracture, shelly, fibrous, granular and earthy. In specific gravity, barite varies from 4.5 to 4.8; hence, the other name, "heavy spar." Before the blowpipe it very often dehydrates and fuses to a pearly white bead, colors the flame red, and gives off sulphur dioxide fumes. Barite is often present in the gangue of silver lead ores, and by reason of its density makes a separation of values by concentration difficult. Fluorite (fluor spar) is often associated with barite, and it would not be impossible for you to find the last named mineral with your barite.

Barite is worth from \$3.50 to \$4 per ton f.o.b. cars, which, surely, would not pay where a long haul is necessary. The mineral is largely used as a white pigment and some white-lead paints (?) are made up almost entirely with oil, white lead, and powdered barite. White lead of commerce is at times adulterated with barite, and very often the sugar we use is generously doped with barite by some of our generous trust donors and squeezers. As a pigment barite forms a paint that is superior to white lead, where, gains and certain other fumes would change white lead to a blackish color. We have given much space to this subject for two reasons. It would appear that Californians having such barite should make paint, and secondly, you go old Missouri question. "We want to know what it is," should be fully replied to, the end that your visual organs and state of consciousness should be fully shown.

**Diorite.**

**SAN BERNARDINO, Aug. 6, 1906.**—(To the Editor of The Times.) I send you by today's post, four samples taken from a ledge or deposit (all from same deposit) found on the edge of the desert in Riverside county. If of commercial value I would appreciate information given me by a reply in "In the Earth." I have been a constant reader of The Times for the last four years. Yours respectfully,

**L. B. W.**

**ANSWER:** You are one of many thousands of constant readers of The Times and evidently know a good thing at sight. Your three gray-black samples are diorite, consisting of hornblende and quartz (feldspar). A great number of correspondents send us diorite, believing it to be a valuable mineral when the fact is it is worthless. Your fourth reddish-brown specimen carries a small percentage of iron in the siderite (carbonate) form.

**No Telluride.**

**SAN BERNARDINO, Aug. 6, 1906.**—(To the Editor of The Times.) Enclosed please find small sample of ore. I have a deposit of it. It appears to be principally manganese with possibly a percentage of silver. Will you please give me metallic components and greatly oblige.

Your subscriber, — T. H.

**ANSWER:** Ore similar to yours has been heralded far and wide as "the richest telluride ore" to which it could have been added "by a new time process which makes vegetable gold."

The sample was tested for tellurium. Not a trace of the element is present. In a qualitative method the results show iron present. The rock is partly chlorite and should be forwarded to an analytical chemist for a full determination of values.

**Calcite.**

**JOHANNESBURG, Aug. 7, 1906.**—(To the Editor of The Times.) By this mail I send you a sample of rock. Is it scheelite? If not, what is it?

**Tours truly,**

**D. T. M.**

**Stibnite.**

**ASHLAND (Or.) Aug. 10, 1906.**—(To the Editor of The Times.) I herewith send you a sample of ore that has recently been obtained from a lead near here. Please describe it and state its value. Thanking you in advance for a reply in The Times.

**Tours cordially,**

**ANSWER:** The sample is stibnite (antimony sulphide), and carries 33 per cent. of metallic antimony. Owing to the fact that ores of the metal are admitted into our "duty free" zone, good old United States deposits of such ore in Idaho, California, Oregon, Nevada and elsewhere are of no value to the smelters or to the so-called "tinny brokers," unless carrying good values in gold or silver.

**Books Received.**

From Parke, Davis & Co., Detroit, Mich., "Complete Catalogue of 1905 and 1906," containing very valuable tables of values for the use of physician, chemist and pharmacist. The book contains "A new departure," "Schimmel's Chemical Index with dose list and therapeutic data. It is a work of great value. "Practical notes on modern perfumes and aromatics," Schimmel's "Chemical Index," near Leipzig, and "Catalogue December, 1905," Fritzsche Bros., New York are both used for reference. Messrs. Merck & Co. of New York and Germany, will accept the thanks of The Times for books received.

Secretary of Agriculture Wilson arrived in South Omaha early yesterday and visited all the packing-houses. He intimated that everything was found to be in a satisfactory condition.

**SHERIFF OUT FOR MINE MEN.**

**NEW YORK, Aug. 21.**—[Exclusive Dispatch.] Sheriff Hayes has received an attachment for \$4,550 against Madison M. and John L. Makeover of the firm of Makeover Brothers, mine owners and developers, in favor of George D. Hurluck, on his claim of assignment to the estate of nonresident. The action grows out of the sales of 10,000 shares of stock of the Montana Overland Mining Company. About \$8000 represents the money paid for the stock and the balance, \$4,550, is for damages. It is said that a motion will be made immediately to vacate the attachment.

# THOUSANDS OF PEOPLE ARE INJURED.

Financially through investments made in enterprises which from their inception bear the earmarks of SPECULATION AND GREAT RISK.

## The Wicker Manufacturing Co.

INCORPORATED.

Capital \$50,000 Par Value \$1.00

Is an already well established and legitimate MANUFACTURING business under good and conservative management and unequalled indorsement.

It offers you the unparalleled opportunity of investing your money by the purchase of its TREASURY STOCK at the par value, or \$1.00 per share. But what does this mean? It simply means that an investment in this stock is one which you are not every day offered and that you should not fail to take advantage of.

WHY? For the following reasons:

Because it is already an established and successful manufacturing business.

Because the demand is steadily increasing for this beautiful furniture of home manufacture.

Because the large orders now on hand as well as those in perspective is the best guarantee in the world of the substantial character of the business.

Because the profits accruing to the company are LARGE and as a natural sequence, good, healthy dividends are assured.

Because it has simply outgrown its present manufacturing capacity and must increase its facilities to keep pace with the growing demand. This fact alone should be sufficient proof of the stability and permanency of the business.

Because, in purchasing this stock you acquire an interest in a company which is being conducted strictly along business lines with every prominent business house in the country pushing the sale of its goods and working for its welfare and success.

Ask any of the large furniture houses about the possibilities of this business as well as the standing of those connected with it.

We want the business of the NEW SAN FRANCISCO and our men are now on the ground after it.

We are bound to grow, and the one hundred and ten firms dealing in furniture in this city are going to aid us in this determination.

We ask \$1.00 or par value for this limited allotment of TREASURY STOCK because we know it to be worth that figure, and that six months from today you would not accept any such price for it.

COME AND SEE US and you will be fully satisfied to become one of the number of lucky investors.

For further particulars, call on or address,

**HOSTS FLOCK TO CALIFORNIA.**

MANY LABORERS IN EAST CLAMORING TO COME.

Chicago Offices Flooded With Inquiries—Demand for Bookings for Transportation Compels Santa Fe to Advance Date for Colonist Rates.

Building Activity the Reason.

Eastern laborers are clamoring for transportation bookings to California.

The Chicago offices of the Santa Fe have been flooded with inquiries. So great is the demand that the Santa Fe has advanced its date for colonist rates from September 15 to August 27, effective until October 31. Undoubtedly other trans-continental lines will follow this move on September 1.

News of these excursions was received at the local office of the Santa Fe yesterday, in a telegram from Passenger Traffic Manager W. J. Taylor of Chicago, who is of the opinion that the heaviest exodus in the history of California will pour out here this fall.

The movement is largely due to the increased demand for labor in San Francisco and the remarkable building activity in Los Angeles, and throughout Southern California.

The class of people who are taking advantage of the low rates are settlers from the New England and Middle West States. Laborers are coming—bag and baggage—with their families, and a big majority of them are fortunately not affiliated with any labor organizations. This latter information, which is authentic, will come as another blow to the local labor council, which has visions of a "strike" that will tie up this city on September 1.

A free labor committee is planning to meet all excursion trains and register the names of laborers in this city. Railroad agents of Chicago are meeting the demand, for cheap excursion rates, and which colonist rates prevail, to the benefit of the local laborers.

Many residents of Los Angeles are sending for relatives in the East, and the Santa Fe telegraphs these orders free of charge.

**COLOR BLINDNESS OF POET.**

Whittier Once Bought a Flaming Red Necktie, Believing That It Was of an Olive Tint.

It is well known that the poet Whittier was color blind and unable to distinguish red from green. He once bought himself a necktie, says the Fourth Commonwealth, which he supposed to be a modest and suitable olive tint and wore it—once. He never wore it again, for his friends soon made him aware that it offended against the traditional quietness of costume enjoined alike by the habits of the Friends and by his own taste. The tie was of flaming scarlet. On another occasion when he found a little girl in distress on account of a new gown made over from her elder sister's, which was not becoming to her coloring or complexion, he tried to console her.

Neither friend noticed it until a workman, violently waving his arms and shouting, leaped before them and warned them back.

"I didn't see the flag at all," said Mr. Whittier's companion.

"I saw it," rejoined the poet, with a twinkle in his eye, "but I thought it was in honor of St. Patrick—thee knows my defect. I can't tell Erin from explosions, except by the harp!"
